SIX CREMATED MANY HURT IN BLAZING TENEMENT

Women in Panic Toss Children From Building and Leap for Life

REVOLVER SHOTS ADD TO PANIC DURING FIRE

Charred Bodies of Three Babes Found With Adults by Searchers

NEW YORK Nov 24—At least six persons were burned to death and ten seriously injured in a fire which swept through a tenement house in Havens place Brooklyn before daylight today When the fire had been controlled a search of the house revealed six bodies most of them burned beyond recognition They were those of two women one man and three children the latter apparently between the ages of two and four years Another woman is missing and she may have been consumed in the flames

The tenement which was intended for the use of only four families was really occupied by eight families and most of these had numerous boarders The police said there were nearly 100 persons crowded in the structure and at 4 when the fire started All of them were Italians

ADD TO PANIC

Instead of sending in a fire alarm the first occupants to be aroused by the flames began firing revolvers from the windows and this added to the panic Starting in the cellar the fire choked the narrow stairways and before the firemen arrived a dozen persons had either dropped from windows or had jumped to a one story extension in the rear A woman who leaped from a second story window is believed to have sustained fatal injuries Most of the others who jumped were also injured

DIES IN FLAMES

The first firemen to arrive took out scores of persons on ladders Mrs Rose Carneille was carried down from her second floor apartments and upon reaching the ground she broke away from the firemen and rushed back into the flame filled building to rescue her two small children She was not seen alive again but later her body and those of her children were found

Police reserves from several stations were called to quell the panic which had spread to neighboring tenements in the foreign section of the city and much trouble was experienced Ten of the injured were taken to hospitals where it was said that several might di The fire department did not discover the cause of the fire

TOSSES OUT CHILD

One of the exciting incidents of the fire occurred when Mrs Rose Monteforte 21 years old appeared at a third floor window with her one year old baby in her arms She remained there calling for help until the window shrieked with flames when she threw the child to the crowd below and then jumped from the window The baby was caught by a man and was not seriously injured

The mother failed to clear a coping and striking on that she rolled off on to the sidewalk sustaining probably fatal injuries

OVER 168 ARE FOUND DEAD IN SHAFT OF MINE

Twenty-One Miners Are Still Unaccounted for and Are Believed Dead

PITIFUL EVIDENCE OF STRUGGLE FOR LIFE

Entombed Workmen Make Hard Struggle With Death in Face of Heavy Odds

CHERRY, Ill Nov 24—One hundred and sixty eight bodies were found early today in the lower vein of the St Paul mine The rescuing party found fans which the imprisoned men had made from tool boxes and messages which had been written on pieces of slate There remain twenty-one miners unaccounted for

The bodies found this morning were in a tangled mass completely blocking the staircase leading from the third to the second vein and also were scattered along the vein where they had dropped before reaching the stairway

DIE AWAITING RESCUE

Black damp was the cause of death, all means of escape having been blocked by debris falling and covering the top of the staircase The men had died as they tried to push through the obstructions or in waiting vainly for rescuers

Death evidently did not come to many for hours if not days. Two rude wooden ventilating fans fashioned after the same manner as those found two days ago, were affixed to the shaft wall and stairway The men had turned these by hand in their frantic struggle for air and the hopeless effort to brush back the black damp The hands of one miner were found firmly gripped about the fan

WADE WAIST DEEP.

The exploring party of four, led by Anton Lodivicieni was in the gallery for more than an hour before the bodies were found They had waded in water waist deep, through the circular tunnel making their way toward the elevation of the shaft or ridge where they had expected to find the men, living or dead The signals given by the rescuers and the usual cry, 'Anybody alive in here?' were not answered

When we climbed up the ridge ' said Lodivicieni we almost stepped on the bodies piled in heaps Some had their heads resting on folded arms as if sleeping Others lays across each other and some were sitting as if resting against the wall

'Nailed to the wall were two fans made of timbering tied about pick handles and under them were the biggest heaps of bodies

DEATHS ARE HORRIBLE

'One poor fellow had his hand up holding the fan I think he died as he was turning it Another held a bucket He was flat on his back and must have died as he climbed up on the ridge The bucket was half-filled with black water

'The black damp killed them long before the water had them We had been in the shaft more than an hour then, and though the air was fairly good, we knew it was time for us to get out

"We did not stop to examine any of the bodies or try to identify them Tom Mulligan, one of our party picked up a piece of natural slate on which was written 'We are here together 168' which must have meant the number of men, and I think it was about the right number

TO DIE TOGETHER

"On a wooden box used to hold tools I saw written with a lead pencil, 'We are here to die together' Some figures were scratched under it and I read it as 160 but I'm not sure ' No evidence that the men had attempted to barricade themselves from the black damp was seen Many of the former workers in the mine protested angrily after they discovered that the men would have been safe from the deadly gas had not the ventilating fan of the mine been reversed shortly after the discovery of the fire

The announced intention of the mine officials to pump out the water in the lower level was balked by the refusal of the machinists to aid them The pump had been disconnected near the second level and machinists declined to risk their lives in repairing the machinery

KEEP DEATH LIST

Robert Shaw, a third member of the exploring party finding the bodies, told of reading a piece of slate on which one of the victims apparently had copied of the totals of the groups who clambered upon the ridge in their last stand for life The writing as remembered by him was

"Thirty more came in Twenty-four more, fourteen more, one hundred and twenty here now"

Other figures hastily compiled by Shaw indicated that the number exceeded 150 when the toll ended

I think some of the men had barricaded themselves in pockets in the gallery but were driven to the ridge by the rising water,' said Shaw "If they had not got out of the pockets they would have been drowned in them."

AMERICANS THROWN INTO JAIL BY ZELAYA'S ORDER

All Those Who Refuse to Contribute to War Fund Are Arrested and Imprisoned

NEW ORLEANS Nov 24—A cablegram from Panama today says that Edgar S Harris of Columbus O an American commercial traveler who has been touring Central America declared that several Americans were in jail at Managua and other places in Nicaragua, having been arrested on orders from Zelaya

AIDING THE REBELS.

PORTO CORTEZ Spanish Honduras Nov 19 (via New Orleans, Nov 24)—Telegraph advices from Managua say that it is believed in Nicaragua that the government authorities in Port Limon Costa Rica, and former President Rafael Iglesias and his following have aided the Nicaraguan revolutionists

This information came from a high official of Nicaragua who said this aid had been stopped through the petitions of the charge d affairs of Nicaragua at the Costa Rican capital, backed by Ricardo Jiminez a Costa Rican presidential nominee and his party

PRISONERS ESCAPE

The representations of the Nicaraguan charge d affairs are said to have caused the concentration of forty-three soldiers captured from the rebel army at La Cohsado These prisoners were to have been taken to San Jose Costa Rica, but were rescued and set free by their companions in the rebel army

AWAITING DETAILS

WASHINGTON Nov 24 — Development in the Nicaraguan situation today were awaiting detailed information from Managua. The vice consul at that capital Mr Caldera is presumably working on the case but the State Department has heard nothing from him

The department appreciates the fact that the vice-consul is laboring at great disadvantage and believes it more than likely that every obstacle in the way of obtaining exact information of the executions of the two Americans is being put in his way

The department is especially anxious to obtain full information as to the status of the Americans at the time of their arrest, particularly as to whether or not they were co-operating with the revolutionists army The officials are proceeding with deliberation and it may be a day or two before anything definite is received on which the department could act

A dispatch to the navy department today announced the departure of the Tacoma from Cristobal for Port Limon Costa Rica. The Marietta is on her way from Guatanamo to Port Limon It is said these vessels are going to Costa Rica for surveying purposes

GLOOM IN THE NAVY.

WASHINGTON Nov 24—There is gloom among the rear admirals of the navy Now comes along the first international rumpus in which the United States has figured in years, and it is with Nicaragua, a country entirely too weak to permit them to fight with dignity and self-respect Probably the nearest a rear admiral will get to "the scene of action" in event there should be war will be Washington A lot of them are here now

Officers of the rank of commander would be in command of the little ships that would be employed against Nicaragua

GIRL FALLS FAINTING INTO ARMS OF MOTHER AS SHE HEARS VERDICT

Jury Is Out Less Than Two Hours and Reaches Decision After Three Ballots

By LYNN ETHEL WILSON

AUBURN, Cal., November 24.—A verdict of not guilty was brought in at 11:15 o'clock this morning by the jury in the Alma Bell case. The decision of the jury was reached in record time and just one hour and three-quarters after the twelve men, in whose hands was placed the fate of the girlish murderess filed out of the courtroom, with Judge Arnot's lengthy instructions as to the legal aspect of the case, ringing in their ears, they were back in their places.

Foreman Hill, addressing the bench, declared the verdict an absolute acquittal, basing the decision of the jury on the defendant's mental irresponsibility at the time of the commission of the crime.

Alma Bell was brought up from her cell in the county jail just before the verdict was rendered, and as the judgment which rendered her a free woman after four months' incarceration was read, she fell half fainting into the arms of her aged mother, who was by her side.

I Am So Glad, Cries Alma Bell

According to the jury report but three ballots were cast, all showing a heavy percentage in favor of the defendant. Judge Arnot, who has shown the girlish prisoner every consideration throughout the trial, turned to the defendant after the formal reading of the decision and told her that in the decision of the twelve men who had been chosen to decide the issue, she was free.

"I thank your honor," responded the girl quietly and recovering herself, hastily turned to a number of friends and acquaintances who remained in the courtroom with a glad smile:

"I am so glad," she cried as congratulations and good wishes were heaped upon her. "I shall never forget this dark time, but it is over now and mother and I are going home together."

Alma Bell left the courtroom to go to her narrow cell for the last time, accompanied by Mrs. Bell and her four brothers, and together the happy family returned to the little Rock Creek ranch this afternoon.

Her brothers declared this morning that they would send her to relatives in the East, where her history is not known.

The jury took three ballots, the first being eight for acquittal, one for manslaughter, one for murder in the second degree and two blank. The second ballot was two for conviction, the third ballot being unanimous for acquittal.

The case of Alma Bell, the young murderess whose trial for the murder of Joseph Armes, a young Portuguese rancher whom she shot in a fit of frenzy, believing herself about to become a mother, has occupied the Superior Court of Placer county for the past three weeks, was submitted to the jury this morning at 9 45 o'clock

The concluding arguments of counsel, which began with an opening address by Prosecutor George W Hamilton yesterday shortly after the noon recess, are limited to five hours for each side by Judge Arnot. Attorney Lee Chamberlain for the defense followed Hamilton, opening his plea in behalf of the girlish slayer at a special session which was called last night concluding at the opening of today's session District Attorney Tuttle gave a masterly summing up of the evidence against the prisoner and, following the Judge's instructions which occupied less than forty minutes, the now famous

ESTATE AWAITS LONG-ABSENT HEIR

Father Dies Without Having Heard From Only Son for Many Years

NEPHEWS AND NIECES LAY CLAIM TO FORTUNE

The Question as to Son's Death to Be Tried in Court

An estate valued at $45,000 awaits the return of a son of the late W. J. Urton of Alameda and whom the father had not seen since 1893.

The heir, to whom the father bequeathed $1000 in his will, not knowing that he was worth more, has not been heard from since that year and has completely disappeared as if the earth had swallowed him up.

The will was filed with J. J. Meiggs as executor as provided for in the document and in order to bring the matter to issue as to the missing son and determine his death J. H. Urton, one of the nephews of the deceased, has entered a petition of contest and applied for letters of administration.

HEIRS AT LAW.

He names the following as heirs at law, being nieces and nephews of the deceased capitalist:

MRS. KATE E. BARNES, 1935 Hasta street, Berkeley.

MRS. ELLA BAILLEY, 777 Lincoln avenue, Alameda.

MRS. LILLY D. BARNES, 785 Nineteenth avenue, Oakland.

MISS ANNA URTON, 1464 Sutter street, San Francisco.

MRS. ELSIE MEYER, San Francisco.

WILLIAM URTON, Sebastopol, Sonoma County, Cal.

MRS. DAISY BARNES, of the same place.

MRS. NETTIE V. GARDNER, Folsom, Cal.

MRS. TIME CLEVELAND, Kenton, Kentucky.

MISS HULDAH GRAHAM, Illinois.

MISS MINNIE MORRIS, of Carrolton, Mo.

R. B. Tappan, attorney for the executor, declares that while the son is supposed to be living, no contest to the will can be entered by other heirs.

The deceased Urton was 74 years of age at the time of his death and the peculiarity in naming his son as his only heir and leaving him only $1000 is offered as an indication that the testator was of weak mind.

JORDAN SUBMITS REPORT ON SEALS

Stanford President Wants Nations to Regulate Killing of Marine Animals

WASHINGTON, Nov. 24.—The recommendation for an international conference with a view to regulating the killing of seals, whales and all other animals of the sea, along with other recommendations adopted at a conference of the fisheries commission yesterday was laid before Secretary of Commerce Nagel today by President David Starr Jordan of Leland Stanford University, and Commissioner of Fisheries Bowers.

The whole question, so far as the pelagic sealing in the Bribyloff islands of the Bering Sea is concerned, hinges on whether the killing of seals shall continue.

The date before the conference shows the grave element of danger is the necessity for the female seals going so far out to sea in search of food that they cross the international boundary line.

The elimination of the male seals, except as to a very small percentage of them, does not figure. There have been many cases of poaching with consequent fines and seizures, but it is purposed not to take up the whole question of regulation of the seal industry there to avoid a possible early extinction of the seals

RUSSIA TO SUPERINTEND RAILROADS IN FINLAND

ST. PETERSBURG, Nov. 24.—Minister of Communications Bukhoff has ordered the officials of the Russian railroads to equip their lines in Finland with officers and engineers chosen from the staffs in direction of the general management. This step is taken by the minister in expectation of railway strikes in Finland which are to be called as an expression of passive resistance of the Finns to the new legislative relations between the empire and the duchy.

This new relations are soon determined virtually by the Russian majority of the Russo-Finnish commission, and the plan is recently published is not wholly acceptable to the Finnish commissioners, whose earlier proposals were rejected.

The Russian personnel of the railways in Finland will be subject to the orders of the military authorities at St. Petersburg.

TRACES HISTORY OF THANKSGIVING

Frances A. Williamson Gives Sketch of Holiday to Members of Lyon Corps

The members of Lyon Corps held exercises in commemoration of Thanksgiving at Pythian Castle hall, on Tuesday afternoon. After the usual business, Frances A. Williamson, patriotic instructor, addressed the corps on "Thanksgiving, Its Origin and Purpose." At the conclusion of the exercises Flora Jacobs, president of the corps, invited all present to the banquet room. The committee in charge served a delicious menu in old-time Thanksgiving style.

Mrs. Williamson's address was as follows:

"The earliest record of a form of thanksgiving is found in Leviticus, chapter 23, verse 39-40, and again it occurs in Deuteronomy, chapter 16, verse 13-14. Hence the Hebrew feast of tabernacle or feast of ingathering at the end of the year is doubtless the origin of the modern Thanksgiving. Although the tribes of Israel were despised and other nations became leaders of thought and traditions the primeval idea of an annual Thanksgiving never faded from the human mind.

MODERN IDEAS.

In modern times we find that day of Thanksgiving was formally recommended by civil authorities. In Europe such a day was observed at Leyden, Holland, October 3, 1575, the first anniversary of the deliverance of the city from siege. The New England colonists, after their first harvest met at Plymouth in 1621, returned thanks to the Almighty Father for their abundant harvests. In 1623 a day of fasting and prayer was appointed on account of drouth. Rain came while they were praying and the governor appointed a day of Thanksgiving which was observed with religious services.

The Charleston records show similar changes of fast into Thanksgiving on account of the timely arrival of supplies. There is also record of official appointments of a day of annual Thanksgiving in Massachusetts bay colony from 1633 to 1639. Occasionally Thanksgiving days were appointed by the Dutch governors of the New Netherlands in 1644, 1645 and 1764.

During the Revolution Thanksgiving days were a national institution, being annually recommended by Congress, but after the general Thanksgiving for peace in 1784 there was no national appointments till 1789, when President Washington by request of Congress recommended a day of Thanksgiving for the adoption of the Constitution. President Madison, by request of Congress, recommended a day of Thanksgiving for peace in 1815. But the official recommendation of Thanksgiving was mainly confined to New England, where it was observed with religious services and was the principal social home-coming festival of the year. The day was not regularly recommended by the governor of New York till 1817, and its adoption by the southern states till 1858.

DURING CIVIL WAR.

During the Civil War President Lincoln recommended special Thanksgiving for victory in 1862 and 1863, and a national proclamation for an annual Thanksgiving was issued in 1864. Since that time such proclamation has been issued annually by the president of the United States as well as by the governors of the state and custom has set the date for the last Thursday in November.

Although Thanksgiving has now a like significance to all the American people, yet somehow the stories and legends of the New England colonies have a charm and a purpose about them that such stories and legends of other colonies lack. To enter into the real purpose of Thanksgiving we must look backward nearly four centuries ago, when the colonists assembled in their humble homes and places of worship to return their heartfelt thanks to God for their first harvests gleaned from a few rudely cultivated acres, and for the protection they had received through changing conditions of pioneer life.

PICTURE OF COLONIES.

By a stretch of imagination we can see the old farm house, covered with snow in the back ground. Then a glimpse in the one big room which served as kitchen, dining room and parlor all at one and the same time. The great open fireplace where the big logs burned brightly, over which swung the crane with its iron kettle, and above all the mantle with its pewter plates and rings and brass candle-sticks, and all manner of things brought from the mother country. Then we see the corn fields and the husking scenes in the old log barn—behind which is the frozen pond where the boys and girls gathered for their Thanksgiving skating. Such reveries give a wave of warmth from the old fireside and take us back to our youth when we listened to the stories handed down from the early colonial days.

MODERN CHANGES.

But what a change has taken place in the affairs of the American people since the first Thanksgiving of the colonists. We are amazed by the contrast with the Thanksgiving of 1909, when nearly ninety million people gather in more luxurious homes, more elegant churches to give thanks to God for more bountiful harvests gleaned from millions of acres scientifically cultivated, and for manifold comforts and blessings.

But here arises a serious question—are we individually and collectively as thankful for the many luxuries we enjoy as were the colonists for the humble necessities produced by their energy and their own inventions. Furthermore we may ask, are we making the same zealous effort to maintain and propagate the ideas of self-government that the colonists made to establish them? It is to be hoped that we are.

CAUSE FOR REJOICING.

We, the people, should rejoice that we live in easier and more plentiful times than our forefathers and foremothers, who stood the trials and tests of those rugged days with unflinching fortitude. Together they laid the foundation of all that is noble and just in our national and social life, and together we must labor to strengthen and protect the rich inheritance we received from them.

As women, we should be thankful for the right to co-educatelon and for the professional and industrial opportunity open to us. In return we should be more companionable wives, more intelligent mothers, more helpful citizens. Nor is this all—we should rejoice and give thanks that we are learning through fraternal organization that the true philosophy of life is to live in the lives of others, to get away from self by getting closer to the heart of humanity.

Morally our nation should rejoice and give thanks that, while it stands on a higher level than ever before in its history, and while it is spending more money on its body, so to speak, it has not forgotten that it has a soul to save. This is shown by the awakening of conscience of the American people and expressed in their determination to enforce a square deal for all of the people, this conscience is also expressed in their indignation at the ignoble uses of great opportunities by certain groups of men in high places—and by certain influencial men of finance. This awakening of public conscience is founded on cleanness, rectitude, self-respect and a determination to maintain the promises our forefathers made when they established our government. Truly this should stir the whole country to a profound Thanksgiving.

STATE TEXTBOOK IS NOT REVISED

Merchants' Exchange Receives Letter Bearing on Subject of Criticized Geography

At the regular meeting of the Merchants' Exchange held last night in the rooms on Twelfth street, a communication was received from the secretary of the State Text Book committee in response to a letter sent to that body by the Merchants' Exchange in regard to correcting some errors in the advanced geography, the new edition of which will make its appearance in the new year.

The directors will confer with a committee of members of the Berkeley Chamber of Commerce at the next meeting of the Exchange when the matter of the law text book will be discussed and steps will be taken toward having the corrections made.

The statements in reply to the letter sent by Wilber Walker, secretary of the Exchange, are as follows:

"I have just seen the State printer and he assures me that the second edition of the advanced geography will be ready between the first and the fifteenth of next month. The introductory geography which is especially full in its treatment of Oakland and the surrounding region, is expected some weeks later.

OPPOSES INSERTS.

"It does not seem to us either possible or advisable to attempt the sending out of inserts of any kind for books already sold. The books are beyond our reach when they are sparsely scattered among 400,000 children. It would be inadvisable to urge upon the children who have bought and paid for their books the idea that they are in any way inferior. You will remember that the changes asked for were not so much the correction of inaccurracies, as changes in the manner of expression and the giving of fuller details. If you will look at the matter from all sides, see it from outside your own particular point of view, you will surely see that the wise way to do is to get the thing into the best possible shape and let it go at that. The average life of a text book is so short (only three years) and the number of the first edition comparatively so small, that this whole contention will soon disappear fro mthe world and be forgotten, if we give it a chance.

DEFENDS BOARD.

"Your remark that the State Board of Education should keep up to date, even if it costs money, is doubtless true but it has its limitations when applied to the issue of text books. You will understand that it is clearly impossible to keep text books up to yesterday or even to last year. Changes in text books must be slowly and carefully made and they must be made so as not to destroy the use of previous editions. The things you are striving for can best be reached by putting into the hands of the teachers the excellent bulletins and publications of the various boards of trade, chambers of commerce and merchants' exchanges, to supplement the necessarily brief outlines of the text book. Such things as these cannot be printed in text books; but they are valuable aids in teaching local geography. They are heartily recommended in the text book itself and I shall be glad to co-operate with any commercial organization at any time in such use of its publications.

ADVISES WAITING.

"All such matters as you mention covering rapid increase in population can best be met by waiting a year for the next Federal census. At that time the plates of both these geographies will be corrected and brought up to date, and we shall hope to give Oakland all the credit and honor she deserves.

"I hope all the above may be definite and satisfactory in answering your questions and that you may feel free at all times in the future to command my best efforts in the service of your city and your schools."

The Exchange discharged the annexation committee composed of Abraham Jonas, J. C. Downey and Wilbur Walker, and appointed a city and county consolidation committee, which includes E. A. Young, president of the Exchange; Wilbor Walker, Abraham Jonas, J. C. Downey and A. H. Schleuter.

and rushed to my room. They stood in the hall and screamed for two minutes. Then my wife telephoned to the police station.

"I protested to my wife before the policeman came that she ought to put on some clothes.

ABREVIATED NIGHTGOWN.

"She was clad in a nightgown that was very low in the neck and extremely short in the skirt. When the officer came she stood talking with him in the hall.

"I told him that he had no business to interfere, that it was only a family disturbance. He invited me to come out on the sidewalk so he could beat me up as I had beaten up a woman.

LITTLE DRINKING BOUT.

"After that I ordered Mrs. Miller from the house. She had been the cause of all our trouble and got my wife into drinking. The night before the row, they came home under the influence of liquor."

This was exhibited in the witness' opinion, by the unsteadiness of their gait.

"They couldn't handle their limbs well," explained the defendant. "They would take little steps and then long ones and they had difficulty in rounding the corners. They laughed and talked foolishly. They both went up to my room and got into bed and when I went up there they made an indecent proposition to me."

Upon relating what it was Mrs. Summerhays gave a gasp of indignant protest and nearly swooned.

PRIOR SUIT FOR DIVORCE.

All the flood of testimony that has been introduced concerning the acts of the plaintiff prior to September 28, 1908, is barred by the condonation which is implied in the dismissal of the divorce proceedings instituted by the wife a year ago. The stipulation dismissing the divorce of that time reads as follows:

In the Superior Court of the State of California, in and for the County of Alameda.—Emma Marie Summerhayes, plaintiff, vs. William Ruggles Summerhayes, defendant.

The above named plaintiff and defendant having settled and adjusted all the matters in dispute in the above entitled action, and having, in pursuance of said settlement and adjustment, resumed their marital relations as husband and wife, it is hereby expressly stipulated on behalf of both said plaintiff and said defendant that the above entitled action be, and the same is hereby dismissed, and the clerk of said Superior Court is hereby instructed and directed to enter this dismissal of record.

Dated September 24, 1908.

It is claimed by the defense that the letters introduced as purporting to have been written by the plaintiff to Kueffer, hinting at first her delinquencies, act as a reviver of all past offenses.

The plaintiff declares the letters to be forgeries, and hints are made of a conspiracy to defeat the claims of the wife for alimony.

HUSBAND WAS IN ROUTS.

When the Summerhayes case was resumed before Judge Wells this morning the husband cut a lamentable figure on the stand.

He confessed that, knowing of the intimacy of his wife with E. H. Kueffer, he had gone with the latter and his wife and with Mrs. Summerhayes on an auto ride to San Jose and that they drank at the roadside resorts. In this trip taken last August the auto broke down and it was 2:30 in the morning before they reached their destination. He also admitted that his wife was addicted to liquor and that in spite of that he had gone with her, his brother and wife and the latter's little daughter to a cafe. There he had two beers. Mrs. Summerhayes drank one beer, several highballs and a mixture of other concoctions against his protests, though he ruefully admitted he paid for them and that he could do nothing with her when she got started on the cocktail route.

"She was beyond control," he pleaded. On this occasion, however, she did not have one of her tantrums and was finally induced to leave the festive board, though slightly under the influence of the jumble of liquid concoctions. His brother's wife drank several claret punches and left in good order, while their little girl took nothing worse than soda water.

THREATENED BY KUEFFER.

According to the testimony of the husband Chief of Detectives Petersen holds his check for $10 which was to have been paid to Kueffer. The latter upon the occasion of his arrest on one charge last August claimed Mrs. Summerhayes had borrowed fifty dollars from him and had possession of his diamond ring. The prisoner threatened that if the money was not forthcoming he would publish the facts of the affair to the world.

To prevent such a scandal Summerhayes went to the city prison and averted the worst by giving his check for $40 to Captain Petersen for Kueffer. As the check had not been returned through the bank the witness thought the Oakland chief of detectives still retained its custody.

He admitted to having had frequent business dealings with Kueffer and on another occasion had visited him at the county jail with several others to straighten out a deal in which Kueffer had attempted to defraud him of $35 in an overcharge for labor and material He disclaimed having seen Kueffer since three months ago when the latter visited him at his office and pleaded for money to buy a suit of clothes. Kueffer stated he wanted to dress up as he had a chance to get a job as an entertainer at an Oakland cafe. He refused to loan the money.

During all the time that he has been in the witness chair the only good word Summerhayes has had for his wife was in admitting that she was of a forgiving disposition and was ready and willing to condone the evils done to her.

"She never harbored revenge or was vindictive," said the witness.

"She would fly up in a rage when angered, but forgot all about it afterwards."

The foundation was laid for the introduction of expert testimony to prove the forgery of the letters which the husband admits he received from Kueffer as having come to him from Mrs. Summerhayes arranging days for visiting the "Fish Ranch."

On the back of one of the letters, according to the annotations made thereon by the husband as having been received by Kueffer from the wife, the latter was in Los Angeles and it would have been physically impossible for her to have kept the tryst, as appointed in the note.

The tendency of the cross-examination is to show that the husband and wife were both made the prey of Kueffer and that the husband was a gullible mark for the man, whom he introduced to the society of his wife and knew to be crooked and had gone out on "tears" with him and now, after condoning the past, comes in and complains of his wife's association with the contractor.

NOT HIS REAL NAME.

Just as Summerhayes was leaving the stand Attorney Keogh asked:

"By the way, is Summerhayes your real name?"

"It is," responded the witness.

"How comes it that it is also your mother's name?" queried the attorney.

"Well," stammered the witness, "the court permitted me to change it and I did so."

Further inquiry as to the reasons for the change was interrupted by the taking of the noon recess.

KUFFER IS MISSING.

E. H. Kuffer, the perfidious admirer of Mrs. Summerhayes, is among the missing, according to J. A. Summerhayes, brother of the defendant, who testified in the trial of the divorce proceedings this afternoon, that he had searched in vain for the elusive contractor. Since November 11, armed with subpoena, he had gone to all the haunts he was known to frequent, and had even tracked him to Sacramento.

CAN'T FIND CHAUFFEUR.

Collins, the chauffeur who piloted Kuffer and Mrs. Summerhayes about on their tours, has also taken the same route, as he cannot be found. He also reported Mrs. Kuffer, the wife of the contractor, to be among the list of absentee witnesses that they profess to desire to have on hand. He denied all knowledge of knowing of any enmity existing between his brother and Collins, the chauffeur. He recollected the night that he was in Morris' saloon on Broadway but he was not present when the purported difficulty occurred in which the brother is credited with acting up steam enough to slap the chauffeur.

SEE MY LAWYER.

Joseph Moffitt, the deputy sheriff, was called to the stand and testified that he was present at the meeting in Summerhayes parlor in August, 1908, when Kuffer, in the presence of Mrs. Summerhayes, himself, her husband and her husband's brother, confessed that he had been intimate with Mrs. Summerhayes. He said that Mrs. Summerhayes' only reply to her husband was "See my Lawyer." Then Summerhayes suggested that he needed a drink, and they all went out into the dining room and took liquor.

Mrs. Summerhayes did not go and she said poutingly:

"I wish somebody would ask me."

PAID BY WHITE.

Moffitt testified that he had received no pay for his services from Summerhayes, that he had accompanied the latter on a visit to the roadside inns to see if they could identify Kuffer. He said that several months afterwards, however, Chief Jailer White had paid him $25 which he said was for the services he had rendered to Summerhayes.

GIRL AND LOVER STRANGELY SHOT

Each Accuses Other and Police Are Unable to Solve Mystery

SAN FRANCISCO, Nov. 24.—Claiming that each shot the other, Samuel A. Gibson, 24 years old, and Alice White, 19 years old, both colored, were taken from a room in the lodging house at 1209 Stockton street, to the central emergency hospital, at 2:15 this afternoon, suffering from gunshot wounds.

Gibson is a buggy washer and claims that the girl, whom he has been engaged to marry, shot him in the left cheek, and then, turning the gun on herself, fired a bullet into her own body. She, in turn, asserts that the man wanted to disregard his promise to marry her and therefore determined to kill her and shoot himself. There were no witnesses to the shooting, but the police intend placing a charge of assault to murder against Gibson.

The man's wound is superficial, but the girl is in a serious condition, and whether or not she will recover cannot be told at this time. Gibson exhibits a knife wound on the arm which he claims was caused by an assault on the girl's part, and also says that she bit him a few days before that.

A theory is that Gibson shot the girl, and then she in turn, securing the gun, fired a bullet into him.

Gibson claims that he wrestled with the girl for two hours in an effort to get the weapon away from her but without success. Detectives from the central station are working on the case.

WHITE PLAGUE ATTACKS MANY JAIL INMATES

HARRISBURG, Pa., Nov. 24.—Tuberculosis in jails, almhouses and other public institutions has reached proportions requiring immediate attention, in the opinion of Bromley Wharton, secretary of the State Board of Charities. Mr. Wharton calls attention to the situation in his annual report to the board. He estimates that at least 700 inmates, suffering from tuberculosis, are to be found in various institutions throughout the state.

Conditions in jails that have been condemned are revolting, judging from Mr. Wharton's report. The condemned jails are the ones in Adams, Carbon, Columbia, Crawford, Franklin, Huntingdon, Lebanon, Schuylkill, Susquehanna, Union and Venango counties.

The Huntingdon jail, says Mr. Wharton, is too old for use; is overrun with vermin and is not equipped with hot water for the prisoners. Other condemned jails are much the same. Food on the whole is good.

Lack of discipline is a feature at the Venango jail. Neither sheriff, deputy nor turnkey could be found by the inspectors. One of the prisoners, Sally Smith, "wasn't in." It was learned that she habitually "went out to work" during the day, returning at night.

SEEKS SUPPORT FOR SAN DIEGO EXPOSITION

LOS ANGELES, Nov. 24.—D. C. Collier, director-general of the Panama-California Exposition of San Diego, which is programed for 1915, headed a deputation which appeared before the Los Angeles Chamber of Commerce today to request the support and co-operation of that body.

It was stated that the enterprise is assured of a sound financial backing through the action of San Diego's citizens, who have undertaken through the sale of stock and a municipal bond issue, to raise $2,000,000. It is expected that every chamber of commerce in Southern California will be similarly visited.

FOOTBALL INJURY KILLS.

HARRISBURG Nov. 24.—Leonard Ettler aged 13, died at his home in this city today from blood poisoning caused by an injury to his knee while playing football.

STOP! THINK! IS IT YOUR KIDNEYS?

Beware of those unmistakable warning signs of serious results caused by neglected symptoms of kidney disease.

That lame and aching back—those sharp, stabbing pains and twitches in groin and limbs—that inflammation, soreness and tenderness of the muscles—those scalding, burning sensations, the inability to retain the urine, sediment from the urine, inflamed bladder and passages, etc.—that "all-gone" dragging weariness and despondency—the restlessness, sleeplessness, irritability, nervousness, irregularity of the heart, etc.—all spell danger.

And, friend, there is danger—grave danger—in every one of these symptoms. They almost surely signify deadly uric acid poisoning of your system—and the swift on-coming of some form or another of fatal kidney disease. De Witt's Kidney and Bladder Pills are the perfect curative treatment for uric acid poisoning and all diseased conditions of the Kidneys and Bladder.

You cannot afford to delay too long. Others have done so—and paid the fearful forfeit.

De Witt's Kidney and Bladder Pills give immediate relief—in almost all cases—and their wonderfully curative effects are speedily noted. These pills are not only exceedingly prompt and efficacious in all diseased conditions of the Kidneys, Bladder and passages, but they contain no narcotics or opiates—therefore cannot do the system any injury.

When one really does stop and think what such symptoms as the above actually mean—and what they surely lead to—it is almost beyond belief that any person will refuse to accept a free trial of treatment of such a remedy as these Pills.

And that is what is offered you—freely and unreservedly. A trial box of De Witt's Kidney and Bladder Pills will be forwarded to you free of all cost—if you want them. E. C. De Witt & Co., Chicago, want every man and woman who has the least suspicion that he or she is afflicted with Kidney and Bladder Disease, to at once write to them and receive a trial box of these Pills, free, by return mail. Certainly this is a generous enough offer.

ENFORCING THE WALKER-OTIS LAW AT EMERYVILLE

A Correspondent's Plea for Legitimate Horse-Racing; He Questions the Sincerity of Its Opponents

EDITOR TRIBUNE: As a patron of the turf and one who takes an interest in the legitimate sport of horse racing allow me to say that I am familiar with the inside workings of the management of the Emeryville race track as they are now being conducted and know that Thomas H Williams the president of the California Jockey Club is earnestly desirous that all of the patrons of the track shall live strictly within the law.

He has in fact specially cautioned them against violating the law

The Otis-Walker statute, which is now in force here is, of course, a reproduction of the Hughes anti-race track gambling law in force in New York State

The latter has been put to the supreme judicial test. It was tried before Judge Gaynor, who was recently elected mayor of New York by a majority of 70 000 Judge Gaynor decided that, while bookmaking and pool selling on the races were prohibited, oral betting was not unlawful and his decision was sustained by the New York Court of Appeals.

Horse racing, as everybody knows is recognized all over the world as a legitimate sport. It has been correctly described as 'the sport of kings' and it has been fostered by all civilized nations from time immemorial. It performs an important function in the economics of the human race

The development of the horse the most useful of man's servitors in the brute creation to its present high state of perfection has been accomplished directly through the instrumentality of the race track, which has fostered the breeding and improvement of equine stock At not those who are endeavoring to permanently suppress horse racing in this State therefore aiming a deadly blow at one of the industries which has made California famous at home and abroad and indirectly, at other important agricultural interests upon which horse breeding is dependent?

Oakland and Alameda county are specially interested in the maintenance of legitimate horse racing The racing season at Emeryville brings thousands of visitors every day to this city and the money which they spend goes into general circulation and naturally benefits every class of business Livermore valley is particularly interested in the horse racing seasons as they furnish a ready and profitable market for the products of its hay and grain fields

The opponents of horse racing at Emeryville profess that their object is to abolish book making and the pool rooms and thus suppress gambling The Otis-Walker law has been in force all summer The upholders of the law have therefore had ample opportunity to prove the sincerity of their intentions Have they done so? Is it not a fact that through the horse racing season on the Eastern and Canadian race tracks the pool rooms have been openly conducting their business both in this city and in San Francisco by taking bets on the results obtained on those tracks and that without any interference on the part of the authorities that have become suddenly active since the opening of the Emeryville track? I have not heard of any arrests being made in either of these cities for betting on the Eastern and Canadian races. Have you?

The present activity of the proponents of the Otis-Walker law seems therefore to be specially directed against the California Jockey Club and the Emeryville race track and not against the vice of gambling But, while President Williams has given every personal assurance that no violation of the law shall be tolerated on the track so far as it lies within his power to prevent it does it not appear to you and to every fair-minded citizen that he is being harassed in such a way as to give the color of personal persecution to the action of those who are taking such an active part in an effort to stop horse racing in any form?

Mind you I make no plea for gambling I want to see the law upheld in every respect In my opinion you will find that the New York law is upheld in this State in every respect That is all we want justice under the New York law as the California statute is a copy of the New York law. Let us have a square deal all around

PAUL S LANGFORD

Oakland November 24 1909

DEFENDANT GIVEN SCORING BY HYNES

Declares Accused Man Went Into Grave to Rob the Dead

(Continued From Page 1.)

have proved derelict in his duties as the district attorney for the county

During the forenoon De Lancey's mother and father and William H MacKinnon his father in law appeared in the court room for a brief interval and listened to the assistant prosecutor's argument with undivided attention

CONTINUES ARGUMENT

Continuing his argument this morning where it was interrupted when court adjourned last evening Assistant District Attorney Hynes faced the jury again at 10 o clock

'An investigation of the $1000 embezzlement in the C Arnaud estate' said he 'will develop the same conditions that surround the looting of the George Hite Cook estate All the records of the public administrator shows in that estate is an entry of $400 The erasure is there to show that the original entry was $1400 and here are the photographs to prove it There is the same endorsement on the certificate of deposit—the same false affidavit the same failure to file an inventory and appraisement and the same false entry in the public administrator's semi annual reports

'If De Lancey were acting honestly in this estate why these irregularities? These facts are a strong circumstance as proving the criminal intent in the George Hite Cook estate

Hynes showed the photos of the alleged erasures in both the Cook and Arnaud entries He said that Attorney George W Reed Miss Marian F Stevenson and A J Flood all testified that they did not make the erasures and so did George Gray and asked the jury that if they did not who did He said that De Lancey admitted on the stand that he got the money in both the Cook and Arnaud estates

WHO GOT THE MONEY?

'Then if he got the money' declared Hynes 'who made the erasures in the record? If De Lancey got the money what was the object in making those false affidavits in the office of the county auditor? What was the object of making those false semi annual reports?

'It looks as if Flood's testimony was true in the face of the evidence John said Flood didn't we get more money than that in the Cook estate? Yes replied De Lancey 'but that's all right I'll fix that' And again Flood said to De Lancey 'John if you don't pay over that money they'll surely get you

'That looks as if Flood was telling the truth Nobody but he De Lancey and George Hite Cook the dead man knew anything about that $10 000 and the dead man could not tell De Lancey said to Flood Nobody knows anything about the shortage but you If you tell on me you'll get me Doesn't that look like Flood was telling the truth? It certainly does Does this sound like honesty? Does it look like De Lancey did not embezzle that $10 000? I think not

REFERS TO DEMANDS

The assistant prosecutor referred to the written and oral demands made by Gray upon De Lancey for settlements and asked if that looked like no intent to embezzle He discussed the settlement of August 31 between De Lancey and Gray in which the latter testified that he gave De Lancey 15 cents in exchange

And when I asked this defendant on the witness stand if he took that 15 cents he replied Sure

I'll tell you why he took that 15 cents He thought this settlement finished the matter so far as Gray and District Attorney were concerned But in that he was mistaken Gray put in that he was mistaken Gray kept after this until the District Attorney left this office and then came the final settlement on October 13

GOES INTO DETAILS

Going into the details of this final settlement and the $1 10 incident Hynes sought to show that in the face of the witness's claims that De Lancey had drawn upwards of $5000 of his personal funds for the business of the public administrator defendant had tried to value Gray out of a paltry $10 000

Let us assume that De Lancey was honest throughout all his business transactions Do you think that he would have sacrificed $2900 he claimed he was willing to sacrifice to get that $10 000 from Gray to start out in business again? No to hear a man afraid of nothing would do that

Hynes said that De Lancey's testimony was not worthy of consideration because in many respects it had been proven to be false

REFERS TO DENIALS

The second term of George Gray began in January 1907 and the letters of administration in the George Hite Cook estate were issued on February 18 following and said Hynes De Lancey testified that when he talked about counter deposits with the District Attorney he thought it was about Gray's first term estates

Hynes asked the jury how such testimony could be reconciled with the facts and District Attorney Heggerty also pointed out to the jury that the statements alleged to have been made by De Lancey to the District Attorney in regard to moneys were total unwarranted save for defendant's half hearted but inconsistent denials and the speaker pointed out where he was pleased to assign as inconsistencies in De Lancey's denials

If he paid his compliments to good old Flood testimony and said that if Flood were the person accused of not having the money and in whose favor the testimony ran and in whose favor the crime was committed not accuse the crime

DISTRICT ATTORNEY'S STAND

Criticism is going to be made here of the District Attorney for his zeal and activity in handling this investigation and in prosecuting this case It will be said that this particular case should be prosecuted by a better employed time in prosecuting wife beaters and so on But gentlemen of the jury Hynes the District Attorney has said Hynes the District Attorney has sworn to safeguard the interests of the people and the investigation of the affairs of the public administrator is in fairness to the people Then why haven't I the right to go on the witness stand and tell of his stewardship as an official of this county?

No It was his duty When he found conditions in the public administrator's office as they were it was his duty to investigate the affairs of the office And it would be his duty to go on the witness stand and tell all what was said between him and Flood and what was done

Hynes laid stress upon the confidence which former Public Administrator Gray said on the witness stand he had reposed in De Lancey in the conduct of the affairs of his office He asked that Gray trusted defendant as he would have trusted his own son He elevated the lawyer from a clerkship at $4 a month to the position of attorney to the public administrator and dramatically asked what De Lancey did then

ABUSES HIS TRUST

This defendant immediately began to abuse the trust declared the assistant prosecutor What do we find? We find the same thing that occurs in every case of embezzlement of this character, a muddling of accounts by the creation of a general 'pot' into which all funds went so that it would be difficult to prove a crime if ever a shortage was discovered.

The speaker said that repayment of the $10 000 in the George Hite Cook estate was no defense but that the restitution had a purpose in it just as there was a purpose in having the receipt executed of Gray at the time of the final settlement on October 13 read that De Lancey ceased to be Gray's attorney about September 6 1909 when as a matter of fact defendant ceased to be the former public administrator's attorney on August 24 which the defense knew full well

'De Lancey was told by Gray according to the latter's testimony' said Hynes 'that all moneys of estates should be deposited in banks to the credit of the public administrator or in the name of the estates De Lancey told Gray that they should be deposited in savings accounts so that they would draw interest and increase the size of the estates for the amount of the fees depended upon the size of the estates Then De Lancey tells us that he had over $19 000 in his commercial account drawing no interest and that he had $17 000 stowed away in a safe deposit box

DE LANCEY'S TESTIMONY

Defendant testified that he did not use the money of the George Hite Cook estate for any other purpose than meeting the expenses of the public administrator's office and in this connection the assistant prosecutor asked the jury why if this were true the entry in the Record of the Public Administrator had been erased so as to make it appear that there was $10 000 less in the estate than had come into De Lancey's possession

'Why did this defendant make an affidavit in the office of the County Auditor that all the moneys belonging to the George Hite Cook estate that had come into his possession was $89"?? Why did De Lancey make up the false semi annual report to conform to these figures and have honest George Gray perjure himself by signing that report when he knew that it was false? Why did he withhold the $10 000 when he deposited the $89"?? with the County Treasurer and why did he repeatedly declare to George Gray and District Attorney Donahue that all of the money of the former Public Administrator's second term of office had been deposited when he was $10 000 shy in the George Hite Cook estate? These are grave contradictions that you must take into consideration in making up your verdict

CORRECTS TESTIMONY

The alleged embezzlement of $1000 in the estate of C Arnaud has been committed in exactly the same manner as the Cook estate was looted, said the Assistant District Attorney He asserted that De Lancey had admitted to A J Flood that he was short the $10 000 in the George Hite Cook estate and he asked the jury if it could reconcile the claim of $4900 which De Lancey compelled Gray to credit him with in the final settlement with De Lancey's testimony that this money was the property of the estates

De Lancey first testified that this money was his private funds advanced in the conduct of the Public Administrator's office he declared Hynes The he corrected himself when pressed upon cross examination by stating that it was money belonging to estates with which he was charged and then he declared that at the very time he compelled Gray to give him credit for the $4900 he had in his possession about $32 000 more belonging to estates In a nutshell in order to get a settlement Gray had to sign away to De Lancey $4900 belonging to estates because defendant claimed that it was charged against him on the books No accounts have been presented in evidence to show that any such transaction was in any manner warranted"

ROUNDLY SCORES DEFENDANT

The assistant prosecutor scored De Lancey as a man who had violated his solemn obligations as a lawyer by abusing the implicit confidence George Gray had reposed in him as his legal adviser, and worst of all, had stooped to the degradation of robbing the dead.

"Why, gentlemen" exclaimed Hynes shaking his finger at De Lancey "under certain conditions men are taken out and shot to death or hanged for looting the corpses of the sacred dead, and yet this defendant faces you pleading for acquittal of this charge with that same atrocious crime fastened upon him"

QUESTION OF MEMORY

'Why the attorneys for the defense were insulted when Donahue declared on the witness stand that it was not his best recollection that Attorney George W Reed had stated to him that he had told De Lancey if there was not a settlement there would be indictments, but knew positively that Reed had made that remark Now Reed is a very estimable gentleman and personally I like him but in regard to this matter Reed simply could not remember

"Neither could Reed remember whether or not he paid any portion of A J Flood's salary He could not remember the details of the settlements between Gray and De Lancey nor could he remember just what he did say to defendant when he talked with him about turning over moneys to the county treasurer nor was his memory good as to what was said at the conference with De Lancey on the ranch in Cull Canyon relative to paying the money in the George Hite Cook estate over to Gray A matter of $10 000 was involved but Reed could not recall whether the amount was $9000 or $10 000 Just think of that' 'Ten thousand dollars were involved and still Attorney Reed could not remember it So the testimony goes all the way through Reed was unable to remember even whether or not the Arnaud estate was mentioned at this conference

On the other hand Attorney Bingaman who was with Reed at that conference had a better memory for what was discussed He remembered exactly what was said and his testimony shows that the facts of the conference forgotten in the main by Attorney Reed really came out at that interview

The noon recess interrupted the arguments at this juncture

AFTERNOON SESSION

Resuming his argument when court reconvened this afternoon Hynes went into De Lancey's claim against Gray for $4900 Gray had declared on the witness stand that he did not know and never had known why De Lancey made this claim and Hynes went into that matter He said that the only hope De Lancey had of beating this case was to show the jury that there had been an open running account between he and Gray and that for this reason he made this claim of $4900

Yet defendant had testified before the grand jury that the last settlement he had with Gray was on the first of the year At that time Gray owed De Lancey according to defendant $4100 That was raised by said Hynes because De Lancey's grand jury testimony was to the effect that there had been no settlement since then because there was nothing to settle All moneys have been deposited in the county treasury

Hynes said that he could not get it through his head how it came about in the face of this grand jury testimony, that Gray owed De Lancey any money at all The defense had made no effort to produce any statement or accounts to prove the indebtedness

COAL LANDS' CASE UP TO DEFENSE

Government Rests in Cunningham Hearing and Adjournment is Taken

SEATTLE Nov 24—The government rested its case in the Cunningham coal land hearing this morning Adjournment was taken until this afternoon, when the defense will announce whether it has decided to begin the calling of witnesses here or wait until the session in Spokane is begun The morning session was occupied by an effort of the attorneys to reach an agreement as to the course to be pursued in continuing the inquiry.

Attorney J M Sheridan for the government states that in the Spokane hearing he will call witnesses necessary to get into the evidence the deeds now in escrow with the Union Trust Company of Spokane, deposited under the agreement of July 20 1907, between A B Campbell Clarence Cunningham and Miles C Moore and Guggenheim, under which claimants were to deed all their land in trust to secure bonds of a company financed by Guggenheim which would develop the coal claims

Counsel for the government said it was the government's intention to get the testimony of every claimant and assignee and such of them as were not called by the defense would be put on the stand by the government

Counsel for the defense assented to this arrangement, but declined to state how many or which of the claimants would be called by the defense It is settled that former Field Agent Glavis will not be called as a witness.

ALMA BELL GOES HOME TO HER MOTHER

I'M GLAD IT'S OVER, SHE SAYS

Verdict is Returned After Jury is Out Less Than Two Hours

(Continued From Page 1.)

case was submitted to the twelve sturdy mountain men whose decision, whether favorable or the reverse will mark an epoch in the legal history of this state

WEARS WHITE RIBBON

For the first time since her incarceration Alma Bell appeared in court with a simple bow of white ribbon at her throat the dainty accessory leading a pleasing contrast to the somber and unrelieved black which she has affected since her murder of the man she professed to love As Hamilton who is a son of General Joe Hamilton, and one of the foremost orators of this state rose to his feet for his argument, which lasting only two hours and a half was on of the strongest summaries of a murder case ever recorded in this vicinity according to his fellow practitioners at the bar The girl bowed her head before the storm of his opening sentences and all during the arraignment which was scintillating with cutting sarcasm, sat with her face buried in her hands

WOMEN ARE PRESENT.

To her right her aged mother leaned heavily in her chair clasping to her breast the three year old child of her eldest daughter Mrs Annie Stone, who sat on the prisoners other side holding a second tiny baby in her lap All of the women were quietly gowned and throughout the long and trying session all sat mute and still while the argument which may go far toward convicting Alma Bell of the crime of which she stands accused went on

Plunging into the heart of his subject with his opening words Hamilton took the jury by storm with the assertion that upon their judgment and honesty from a legal standpoint, is to depend not alone the fate of an obscure country lassie but the status of a state which must either declare itself for or against the woman who goes out into the highway and slays believing that her sex will set her free

DECRIES HANGING OF WOMEN

"A woman has never been hanged in the west" declared Hamilton "and I hope that such will never be the case I myself, sitting on a jury could not bring in such a verdict and I ask it of no one else But there is a law a right a just co in this land and our constitution public decency itself demands that the feminine thing who takes a life shall pay if not so heavy a penalty as that meted out to man under like circumstances at least one in some measure comparable to the dead

"Alma Bell believing herself about to become a mother and frantic over the fancied fickleness of the man with whom she delib rately and knowingly consorted for a year and a half previous to the tragedy with a cold and criminal deliberation shot down Joseph Armes in the bloom of his young manhood and he world cries 'He got just what he deserved'

"Is this justice" Is a woman 24 years of age and in possession of her full mental faculties to be permitted to walk our streets and roadways sharing the male being to whom she yields day after day month after month with a passion a desire a recklessness of consequences equal to his own? Does not the great law of cause and effect demand that she suffer too?

SCORES UNWRITTEN LAW

"Is it justice that such a one should hide behind the unwritten law If such a thing there be? Are we as a nation a country a state to fling aside all responsibility hiding duty under a mask of chivalry or are we to rise m now and declaring Alma Bell guilty set a precedent which will go far to prevent instead of encouraging many like deeds?

"To our mothers we must look in this hour They must be responsible for their daughters' lives It is for women to lift not drag chastity in the mire O brothers and sons growing up amongst us should be taught the evil of the insensibility a woman the damage that she can do and the only way to send the lesson home in its full strength is by punishing the transgressor as in our midst

TELLS OF RELATIONS

"There is nothing in a young man's life so much to be feared as that he may run across a jealous woman who yielding to his importunities shall think she owns him body and soul Such a misfortune came to Joseph Armes in the years of his comparative immaturity He was not as he been painted a rogue and a violator of woman I or He was not, as has been painted a animal, raised in the mountains who mated with Alma Bell is much the beasts in the fields That the girl was time went on formed a violent affection for him and it she showed him Their wedding day was set and it was not until then—several weeks after she believed herself his affianced wife—that she succumbed to his importunities Alma Bell yielded to her lover but she is not the first nor yet the last woman to do so Till was to out that if he had kept faith with her as she kept faith with him this tragedy would not be now engaging the attention of this jury

Crawling on her knees like a wounded hunted thing, Alma Bell crept to Joe Armes cabin on that fatal night and in desperation begged him to keep his oft repeated pledges Armes spurned her and with the ghastly spectre of impending shame before her this girl went mad

ARRAIGNS DEAD MAN

"Do you believe gentlemen of the jury that if this defendant had not been betrothed to the dead man he would have allowed her to live in his mother's house to become the chum and confidant of his sisters and the companion of his brothers? Would he have allowed her to call his mother Mama? If he did so then I say in common with every clean minded man Armes was so monstrous a thing he will find even the doors of hades locked against his spirit

Do you believe as they walked under the stars together that this girl deliberately planned the murder of the man she loved Imagination We do not think so gentlemen of the jury and we look forward without fear to a verdict that shall take into consideration that Alma Bell did a fatal tribute in a moment of supreme passion when she did not know right from wrong

District Attorney Tuttle confined his argument which was an extremely strong one to the legal aspects of the case warning the jury that they must not in their return a verdict of acquittal unless the defendant has made them believe that she was insane

HISTORY OF CASE

Alma Bell was accused of shooting Joseph Armes in the night of March last The girl called Armes to her cabin where he was sleeping with his brothers and shortly afterward a pistol shot was heard from the direction with the couple Judge Frank and Manuel Armes and Tony Grirko both friend and friend of Joe rushed out of the cabin and found the girl dead by his side in the trail The sheriff was notified and the next morning he found Alma Bell sitting in the brush near the scene of the shooting After the shooting Miss Bell went to a nearby ranch house told the inmates that she had killed her lover She left but returned later and said that she knew that he was not dead because she could hear him moaning She left for the second time and was not seen again until she was taken next morning by Sheriff McKinley

On the night of the shooting Alma Bell came to the cabin occupied by Joe Armes and his brother and demanded admittance that she might explain some matters which she asserted had been left out by her After some parley she was admitted and remained in the cabin two hours On leaving she persuaded her lover to accompany her and according to the testimony of the brother and friends a short time later

GIRL ADMITS SHOOTING

Immediately following the shot the two men assert that Joe cried 'Oh boys he has killed me' that Alma Bell exclaimed 'I did it' According to the story of the sheriff the girl admitted the killing and asserted that she fired to protect Mrs Lena Herbert Miss Bell admitted to the sheriff that she had been intimate with Joe Armes

During the trial the defense sought to prove that Alma Bell was a victim under promise of marriage Experts testified that under the circumstances the girl had no sense of right or wrong when she did the shooting Alma Bell's own story of the shooting was not brought out during the trial

The trial began the first week in November and lasted until noon before noon today

DENIES PRISONER'S STORY

Attorney Chamberlain in his closing argument for the defense shortly after 7:30 o'clock last night He spoke for three quarters of an hour the comparative brevity of his argument causing general surprise

Going back to the sixteenth year of Alma Bell's life Chamberlain told of her struggle in the face of direst poverty

As a girl Alma Bell was untrained" said Chamberlain and when thrown on her own resources at an age when most girls are carefully cared for in their own home she was forced to do the most menial labor in an effort to sustain life itself

"Alma Bell was not a delicately nurtured woman She knew nothing of so-called higher principles Even God was a myth in her simple untrained mind With poverty as her only friend, she grew up, and her realities were the barren rocks, the stubby underbrush and the arid wastes of her mother's poor ranch, the only home she ever knew

LOVE AFFAIR

"Sooner or later every woman learns to care for some man and this primitive mountain girl was not an exception She met and loved Joe Armes He told her he loved her and she believed him Their wedding day was set and it was not until then—several weeks after she believed herself his affianced wife—that she succumbed to his importunities Alma Bell yielded to her lover but she is not the first nor yet the last woman to do so Till was to out that if he had kept faith with her as she kept faith with him this tragedy would not be now engaging the attention of this jury

ZOOK ESTATE TO BE INVESTIGATED

Alleged Fortune of Dead Cattleman and Miner May Prove Worthless

The question as to whether the fortune of the late J. W. Zook, cattleman and miner, is of myth or fact, will be probed into by Public Administrator Mehrmann, who was given administration over the estate by Judge Ogden this morning.

In the proceedings today M. G Scribner, who was named as executor in the will made but slight contest and appeared, so far as the legal action was concerned, perfectly willing to let the expense of probate and care of the property be borne by others.

He comes in for one-half of the estate which ranges in estimates as to value from a few folders and a suit case to a golden store of millions

The children of the deceased were behind the action of the public administrator's attorney, A. P Leach, in his petition for letters testamentary in which their legal representatives, Dibert and Stiefvater, gave their approval.

Scribner went on the stand and after testifying that Zook had roomed at his hotel the Galindo, and awarded him half interest in his estate under the will he had grave doubts as to its value

The $15,000 check that figures in the assets he declared could not be realized on He thought the stocks were worthless.

No new facts have been developed to change the belief that Congressman De Armond lost his life in trying to save his grandson, and that he was overcome before he realized how serious the fire was.

DEMAND LAW TO STOP SLAUGHTER

Mass Meeting Will Be Called in New York to Discuss Reckless Chauffeurs

NEW YORK, Nov. 24—Aroused by a peculiarly atrocious instance of disregard of human life by a chauffeur, the police commissioners issued a call today for a mass meeting to urge legislation Alice Moben was struck down by a touring car last night and when the driver found her body clogged the wheels he stopped to jolt the machine free, and then made off at high speed.

In his statement, Commissioner Baker says "It is time for a radical change in the law regarding speeding It is time for the citizens of New York to hold a mass meeting and protest to the Legislature against this slaughter.

URGES ACTION

"An engineer who runs a harmless donkey engine in this city get his license from the police department. If an accident occurs and he is responsible his license is revoked. Why, even with the asphalt rollers the law requires that a man go ahead of one of them and wave a danger signal, but 60-horsepower autos run wild through the streets and what can we do?

'Arrest them" Bah!

"We arrest a chauffeur and he is fined $10, which he pays with a laugh and goes out and does it again"

DUTIES OF SCHOOL DEPARTMENT GROW

Board of Education Lays Plans for Conduct of Enlarged Department

Considerable agitation prevailed at the meeting of the Board of Education last evening when the directors received a communication from the Park Commissioners declining to permit the board to fence the proposed new athletic grounds in the Washington School which is joined by Busarod Park The matter was referred to the committee on school houses and sites Superintendent McClymonds said that the fence was to have consisted of wire and a pretty hedge which he declared would not detract from the appearance of the park Several of the members of the board stated that the letter received was not in accord with the agreement made with the commissioners

ENLARGED DUTIES

In discussing the fourteen new schools which will come under the jurisdiction of the Oakland school department the directors said that some of the rules and regulations will have to be changed in order to give the board power to act in the new district Superintendent McClymonds admitted that very few changes would have to be made in the course of study The schools in the recently acquired territory are Bray Brittan Elmhurst Fruitvale Nos 1 2 and 3 Highland Lockwood Lincoln Melrose Melrose Heights and John C Fremont High School

The board entered into an agreement to occupy the lower floor of the Pioneer Hall Association in the North Alameda tract where there will be two classrooms and two grades in each room It will include the first second third and fourth grades of the grammar schools

The agreement was originally signed by the board of trustees of the Fruitvale school district Directors R V Campbell H K Fisher and J H Kelley affixed their signatures to the document on November 15 for a period of two years with a proviso that at the end of that time the contract would cease The board will furnish the school rooms and have them in first class condition for the little ones to occupy in a short time It will be a temporary structure for the children until the board sees fit to erect a building in that district The Pioneer Hall Association bought the property from the Derby estate and they intend to erect a two story building The upper floor will be occupied as a hall and the lower for the schoolrooms

LOCATION OF SCHOOL

The new building will be located within that portion of the Fruitvale district bounded on the west by the city boundary line on the north by the Southern Pacific right of way on the east by Fruitvale avenue and on the south by the tidal canal

J W McClymonds is rearranging his schedule of visits preparatory for the additional work which will confront him after the annexed school district comes under his supervision which will be in December In referring to the matter he said

"With the additional schools which will become a part of the Oakland city department will come 114 teachers many of whom are practically strangers to me So far as I have been able to determine these new schools are in excellent condition and will not need to have any new policies installed

We are not troubled over the matter of money for salaries of the new instructors for that has already been taken care of for the fiscal year by the districts in which the various schools are situated I have already visited some of them and from the conditions I found there I have no fears for the future.

SCHOOL TOWELS

There was quite a little talk about the matter of towels in the local schools with regard to providing individual cloths for the children on the ground that they are more sanitary than the roller towels The question as to whether there should be separate towels for the little ones or continue with the rollers will be determined by the committee on furniture and supplies

Superintendent McClymonds also brought up the matter of the cafeteria in the Oakland High School and in a convincing speech said that it is a crude way of serving a meal and he did not think it a good thing for the boys whom he described as sitting on tables eating in a rude fashion He asked that the cafeteria matter be referred to the High School committee

L R Wicker of Oakland was awarded a contract to place a sidewalk in front of the Emerson Grammar School building at 13½ cents per square foot

WOMEN OF FASHION ARE SCORED BY MRS. COOLIDGE

SACRAMENTO Nov 24—Society women in general and feminine fashion plates were scored by Mrs Mary Roberts Coolidge formerly professor in economics at Stanford University in her address to the Sacramento county teachers institute now in session here

Mrs Coolidge took Clothes and Character as her subject and declared that fashionable dress is a sign of incapacity and that it undermines the feminine character

Mrs Coolidge contended that it is just as retrograding for a woman to dress in the extremes of fashion as it is for them to swear talk loudly upon the streets and do many other unwomanly things Most cases of embezzlement Mrs Coolidge declared had some woman behind them

LIBERAL PARTY TO OUTLINE CAMPAIGN

LONDON Nov 24— At a prolonged meeting of the cabinet today held to discuss the crisis arising from Lord Lansdowne's motion to withhold from the budget bill the consent of the House of Lords it was decided to call an immediate meeting of the liberal party for the purpose of outlining a plan of campaign

In Parliamentary circles it is believed that the House of Commons will be prorogued as early as next Tuesday following Premier Asquith's announcement of the government's decision this means probably an appeal to the country earlier than had been expected quite likely during the first week of the new year

Remember the Poor.

While we are rejoicing and giving thanks for the blessings we enjoy let us not forget the poor. It is melancholy to reflect that in the midst of such abundance and prosperity as abounds here there should be people destitute and hungry. Doubtless improvidence, idleness and vicious habits are responsible for much of the want and misery that prevail amid the abounding plenty, nevertheless there are worthy people in distress through no fault of their own. Sickness, misfortune and misplaced confidence frequently cause destitution; and then there are the innocent sufferers for the sins of others—children of dissolute parents, deserted wives, and the aged deprived of the natural props of their declining years. Let them be remembered in this season of good cheer, their wants relieved and their hearts made to feel that Thanksgiving Day is not an empty mockery.

Oakland's Awakening.

The events of last week in which Oakland was so deeply interested have attracted more than State-wide attention. Oakland has, in consequence, become the best advertised of all the cities of the Pacific Coast for the spirit of progressiveness animating its people which these events have conclusively revealed. From all directions, the press of the country unanimously congratulates it on the display of civic pride represented in the decisive vote cast for bonds for municipal and water front improvements and for the annexation of contiguous territory. The newspapers of the State uniformly recognize in both elections a great popular awakening and the opening of a new era of prosperity and commercial advancement for the greater city which has been created and which the obligations assumed guarantee to it in the near future. And in the decisive vote which was cast in favor of annexation by the residents of the suburban territory annexed every California newspaper commenting on the election foresees as inevitable the consolidation of all of the cities on this side of the bay into one big and harmonious municipality at an early date, working out for itself rapidly the destiny naturally marked out for it by virtue of its favorable location and which needs only civic enterprise to accomplish.

What outside observers thus forecast is coming by leaps and bounds. Oakland has been born again. Its people have discovered themselves; their awakening is complete. If all the silurians are not actually dead, they have ceased to be an influential body. The new blood in the community has aroused the spirit of progress and the silurian, who has been hitherto blocking the car of progress, has been unceremoniously cast aside. And, now, the movement has been fairly started for higher attainments—the accomplishment of greater results which are all in the range of possibility to an intelligently aggressive and enterprising community. Having found out that the shaping of its future rests in its own hands, backed by a united citizenship, nothing can hereafter stay its progress, and its neighbors on this side of the bay are being infected by its spirit and are growing eager to join in its fortunes.

Creating a New Gibraltar.

Corrigedor island, which lies at the entrance to Manila bay, is a solid rock rising one hundred feet above the sea level. It overlooks the two ship channels leading into the bay and properly fortified it is claimed will be an absolute protection against the passage of an enemy's ships in time of war. When Spain was in possession its fortification was neglected, only one big old-fashioned gun being mounted on the fort commanding the main channel, and the fort itself was garrisoned by only one small company of men. To enable him to attack the Spanish fleet lying inside the bay off Cavite and the city of Manila, forty miles or so from Corrigedor island, Dewey decided to force the entrance with his fleet of seven ships, and crept in under the cover of night and with all lights dimmed. In single file the fleet passed in, the little reserve cruiser McCullough bringing up the rear. The vessels passed the fort before their presence was discovered and fire was opened on them. One well directed shot from the McCullough put the big gun out of commission, which ended the serviceability of the Spanish fort.

This little rock is now being converted by the United States army engineers into a veritable Gibraltar which, when the big modern guns are mounted in the emplacements constructed to receive them, will be, it is claimed, quite as impregnable as the famous rock fortification commanding the entrance to the Mediterranean sea. If the Spaniards had utilized the island, as the United States government has done, it would have been impossible for Dewey's fleet to have entered Manila bay and destroyed the Spanish fleet inside as he did. The only thing that he could have done would have been to have blockaded the entrance to the bay, as the joint fleets of Sampson and Schley were forced to do off the entrance to Santiago bay.

Talk about the goose hanging high, just inquire of any market man the price of turkeys.

Protect Fabiola Hospital.

It is proposed to erect a Japanese laundry on Piedmont avenue, opposite the nurses' dormitory of the Fabiola hospital. The laundry, if erected, will keep up a continuous noise that will prevent the nurses from getting their rest. Naturally the lady managers of the hospital are greatly concerned over the matter, and protest warmly against locating the laundry where it will interfere so seriously with the comfort and repose of the nurses. If the erection of the laundry at that place can be legally prevented we hope it will be. The hospital cannot move, and there are hundreds of laundry sites to be had equally as convenient. Fabiola hospital has done a great work, and is still doing a large and benevolent service to the community, and hence is deserving of special consideration. Putting a noisy laundry next door to the nurses' dormitory is, in a sense, an offense against the public and an institution devoted to the care and cure of the sick. It is essential that the nurses who keep nightly vigil in sickrooms should be permitted to slumber undisturbed. They cannot do so if the laundry be erected on the site proposed. The authorities should therefore exert all their legal powers to prevent something that is akin to an outrage.

The Democracy's Loss.

By the tragic death of David De Armond the Democrats have lost one of their most forceful and combative representatives in Congress—a man of sincerity, courage and integrity, though one often mistaken in his views of public questions and prone to rash judgments and intemperate speech. His temperamental faults were those of a likeable, honest man, but they marred his usefulness in Congress and kept him from the leadership to which he aspired. But with all his faults and his mistaken ideas of public policy, he was a man worthy of undivided respect. Despite his rancorous, and often unjust, partisanship he played a useful and necessary part as a watchful and aggressive critic of the majority. His constant challenge of every important measure was in the nature of a fire test that had a purifying effect on legislation. It must also be said for Mr. De Armond that his personal independence rose above party control; he was as free in criticizing the chiefs and measures of his own party as those of the opposition. Narrow and self-opinionated though he was, he was a sound patriot and a clean man. It is profoundly regretted that the minority, already weak in Congressional representation, should be deprived of a champion so aggressively honest and sincere.

The hookworm has at last got into the divorce court in San Francisco. Measures should at once be taken to keep it out of the probate court.

The war between the Yee and On Yick Chinese tongs has extended to Salt Lake City, where the resident head representative of the Yee family has appealed to the police for protection, warning having been sent to him from San Francisco that he has been marked as a victim for hired On Yick hatchetmen who have been dispatched to Salt Lake to take his life. Of course, the Chinese Six Companies deny that any hatchetmen have been sent to Utah or Colorado to wreak vengeance on anybody. A general feeling of unrest exists in the Chinese colonies throughout this State, and although the police in all of the cities where such colonies are located are keeping a close watch over their respective Oriental quarters, more highbinder victims are liable to be added to the list of those who have already been slain since the feud of the Yees and the On Yicks began.

The Lincoln-Roosevelt League has endorsed President Taft with the warning that he had better keep out of the hen-roost in future. Doubtless the President will be deeply gratified by a testimonial so dubious with respect to his integrity.

There is only one kind of knocking that is welcomed in a progressive community like that of Oakland—namely, that which is conveyed by an electric riveting machine employed in the erection of class-A steel frame structures.

Says the Marysville Appeal: "Now that Oakland has become the second city in size in the State it is hoped she will let up trying to sneak the State Capital and State Fair away from Sacramento." Oakland has never hankered after the State Capital. Berkeley had a momentary dream, but not this city. Oakland has her harbor and her splendid manufacturing advantages, her glorious climate and unrivaled railway facilities, and has no wish to disturb the location of the State Capital. Berkeley can well afford to be satisfied with the State University and the Institution for the Deaf, Dumb and Blind. We don't want to hog everything.

The annexation fever has taken possession of the little city of San Mateo whose trustees have called an election for December 10 to vote on the question of annexing its four suburbs, El Cerrito, Hayward Park, Highland Park and South San Francisco.

Floods are setting in early this winter in the Pacific Coast region. Every stream in Oregon and in Eastern Washington is reported out of its banks and some damage to power plants and railroads has been done. In this State the Sacramento river is rising rapidly, and the Mokelumne is flooding the river bottoms.

WHAT THE NEIGHBORS SAY ABOUT OAKLAND

OAKLAND A METROPOLIS.

Things have been stirring in Oakland this week. Two elections have been held that mean much for the future of that city. The first was a bond election and provides means for a million-dollar City Hall, the acquisition of more water front and the further improvement of what the city already owns, the paving of streets and other improvements. By the second election the limits of the city were extended to include Fruitvale, Melrose, Elmhurst and a number of other suburbs. It is estimated that Greater Oakland will have three hundred thousand population. Oakland has grown in the past ten years from a sleepy country city to be a hustling, up-to-date metropolis.—Vacaville Reporter.

CONGRATULATES OAKLAND.

The Sentinel congratulates the citizens of Oakland on their display of civic spirit. They have responded nobly to the call of public duty. By giving an overwhelming majority for a new City Hall and water front improvements, they have given notice to the world of an intention to make that city a commercial and maritime center; have demonstrated the fact that there is at last in Oakland an organized public opinion strong enough to override personal differences. When the Santa Cruz bond election takes place may the people of this city do as well as did the city on the opposite side of the bay of San Francisco.—Santa Cruz Sentinel.

KEEP YOUR EYE ON OAKLAND.

Oakland took a big step yesterday in advance when, by a vote of 13 to 1, her people voted for the issuance of $2,733,000 for public improvements. Just watch Oakland continue to grow.—Vallejo Chronicle.

OAKLAND AND ITS LATEST BOND ISSUE.

The people of Oakland have taken an effective way of bringing their city to the attention of the country. The bond issue of three and a half million dollars which has been voted for the improvement of the city will be an advertisement worth much. Oakland has had none of the notorious cases of graft which has handicapped San Francisco, and now that San Francisco has voted in a way which will cast a shadow on its future so far as what the people may expect, it is probable that the investors and homeseekers who do not wish to be involved in the dubious administration that may follow will seek the other side of the bay.

The action on the bond issue shows that Oakland is growing rapidly; that the people there recognize the fact and that they are trying to take advantage of every opportunity presented. They are going ahead rightly by making the city as soon as possible on which is not lacking in any of the equipment or environment which new-comers may expect and will look for it to possess.

Rightly enough the necessary harbor or water front improvements are provided for, and that means the growth of Oakland.—Grass Valley Union.

BIG INCREASE IN POPULATION.

By the carriage of the Oakland annexation election the population of that city is increased by over 40,000. The vote in the outside districts was 2½ to 1 in favor of the project. It is just as well to take note of these examples of municipal progress which are occurring regularly in all parts of the coast.—Chico Enterprise.

OAKLAND'S GREAT VICTORY.

When Oakland carried the annexation of Brooklyn and Oakland townships last Tuesday the fate of Berkeley and Alameda was sealed. These two municipalities might as well gracefully bow to the inevitable and walk serenely into the fold of Greater Oakland, for there is nothing that will withstand the stampede of the Oakland boosters. The annexation of the two outside townships, comprising 36 68 miles, making a total area for Oakland of 60 77 miles, makes that city a magnificent municipality, and when Alameda and Berkeley come in under her wing, Greater Oakland will have a population of fully 400,000 and be the best advertised and most populous city on the coast.

The wonderful unity of the people in voting almost unanimously $8,500,000 in bonds last Monday will make it known the world over and bring thousands of homeseekers to locate there.

The country people can easily see the hand writing on the wall in Oakland's great victory in annexing the outside property Tuesday—and that is the division of Alameda county.—Hayward Journal.

AUTO DRIVERS and Their Speed Regulations

"When the drivers of automobiles learn to regulate the speed of their machines the automobile will become a very useful instruent in the development of the country and in the improvement of the highways," said Will B. Powell, of Shadeland, Crawford county, Pa., at the Raleigh.

"But until the automobilists get over the speed mania that apparently has gripped everybody who rides in an automobile, the speed wagons will be a menace to life and property, not to speak of their injury to roads. I believe in the automobile, although I have been a breeder of horses all m ylife. It will be a great thing for the whole country, properly regulated. I do not take the view that it will result in the relegation of the horse. The time never will come when man will go back on his best friend, and the automobile will serve to emphasize the utility of the horse.

"I believe, however, that in the present day the automobile is not serving any good purpose in the movement for the improvement of the roads. It is undoubtedly true that the big touring cars that travel over the county roads at a rate of speed that takes away the breath of the ruralites, do great damage to the roads. They cut great dents in the highways, and not only that, they imperil the lives of the country people and undoubtedly kill a great many chickens and other live stock on which the farmer depends for a living. All this could be avoided by a regulation of the speed. There is no occasion for the terrific pace at which the machines are driven along the country roads, and the sooner automobile enthusiasts learn to respect the rights of the country people, the sooner they will get their support, and not until then."—Washington Post.

PURELY PERSONAL

Another famous engineer engaged in Britain's latest harbor was Sir John Jackson, who is carrying out contracts at the present moment which total nearly 10,000,000 pounds. He is now engaged on the construction of a new naval harbor at Simon's Town, Cape Colony, a harbor at Singapore, a dam for Loch Leven, in Scotland, a breakwater on the Tyne, new naval docks in Spain, and a railway over the Andes. These huge undertakings involve millions of money, and mean employment to thousands of mechanics and laborers. One of Sir John's dreams is the linking of Britain to the Continent by the erection of a gigantic bridge which will defy the attacks of the severest storm.

Dr. Henry Coward, who has resigned his position as chorus-master of the Sheffield Musical Festival, has been practically a self-taught musician, who seemed at first to have everything against him. Till the age of 20 he was engaged in business, then he turned schoolmaster, and not until he was nearly 40 did he turn his attention to music as a profession. Since then, however, he has made up for lost time with a vengeance, and today there are few busier or better-known musicians in the kingdom. He reckons that he has conducted now for over twenty years some 25,000 singers and players per annum.—London Tid Bits.

Comments of U. S. Press on Uncle Joe Cannon

"Joseph Cannon politically is all in."—Chicago News.

"And when he becomes insurgent and tries to break out there'll be a splintering of door panels and a smashing of window panes."—Atlanta Constitution.

WHO SHALL SAY?

"Who shall say that Cannon is not fairly leaking the milk of human kindness. With new rough edges on his voice he is going about the West pointing out that his enemies are different from him. This, we should judge, without waiting for the official score, should make them first in the hearts of their countrymen."—New Orleans News.

A BOURBON.

"We haven't the slightest doubt that within ten years his name will have a place in the dictionaries no less fixed and descriptive than the name Bourbon has. It will be applicable to any one who fancies that all the world's past, present and future wisdom is embraced in the few ideas he absorbed in his youth. Mr. Cannon spoke with unaccustomed sapience when he suggested the possibility of his being something else than a Republican."—Galveston Daily News.

CAUSE OF REBELLION.

"The arrogance that comes to a party as the result of long continued power, is sure, at length, to drive the people into rebellion. This arrogance at present is best exemplified by Cannonism, that embodiement of all that is distasteful and un-American. A great majority of the people object to Cannon and what he represents. Cannon could never be elected to any office by the votes of all the people."—Cleveland Plain Dealer.

AGAINST CANNONISM.

"The result of all this political discussion in the middle Western States is that the overshadowing issue of the Congressional campaign next year will be Aldrichism and Cannonism. So far as Senator Aldrich is concerned, his position in his state is unassailable. A different situation exists with respect to Speaker Cannon."—Boston Globe

INSURGENTS AND CANNON.

"What was said before the election may be repeated now, that the tariff will not occupy the attention of this Congress. But it is in the highest degree probable, if not inevitable, that the conflict between the reactionary republicans of the House under Speaker Cannon and the insurgents will be resumed with increased bitterness."—Philadelphia Record.

Col. Astor's Chair

Colonel John Jacob Astor, who has been divorced very recently by his wife, has invented many ingenious devices, the latest of which is thus described by the Scientific American: "Many people in crossing the ocean have experienced inconvenience by reason of the fact that the chairs in the saloon and cardrooms are rigidly screwed to the floor. The chairs are secured at such a distance from the tables that they will accommodate persons of very ample proportions and therefore when a comparatively thin person occupies a chair he finds it necessary to sit merely on the edge, for should he endeavor to lean back in the chair he finds himself too far from the table.

"While recently returning from Europe, Colonel John Jacob Astor conceived of a very simple and practical scheme whereby the chairs may be firmly held in place at any desired distance from the tables or may be released and moved about. Colonel Astor's scheme involves the use of a vacuum cup beneath the chair and so mounted that it may be pressed into engagement with the deck or floor to hold the chair by suction, or the vacuum may be broken, the cup lifted and the chair released.

"If the chair is on a deck or hardwood floor or on rubber tiling the vacuum will hold indefinitely, while if used on a carpet it will probably be necessary to depress the cup and raise it again occasionally to form a new vacuum. Colonel Astor intends to present this invention to the public, as has been his custom with all his recent inventions."

RAILROADERS PLAN BIG WAGE INCREASE

CHICAGO, Illinois. — From a man who, on account of recent prominent connection with railroad organizations, is considered excellent authority there came confirmation recently of the story that the most sweeping demand for a wage increase in the history of the business in this country will be made the first of next year. None of the present executive officers of the big railway organizations is in Chicago at present, and the railroad managers said they were in ignorance of the movement among their employes for a new schedule of pay.

The information available here is that the western railroad conductors and trainmen have no intention of making demand for a wage increase, but that they are already virtually pledged to help their eastern brothers in the general movement for an advance. The wages of western employes are from ten to twelve per cent higher than the scale in force in the east. The western employes, therefore, are willing to lend their influence and support to the plan for a uniform scale all over the country. While no formal test of sentiment has been made, it is believed the western employes would go to the length of helping tie up the lines of the country if that were necessary to bring about the advanced scale on the eastern lines.

Representatives of the Chicago and Alton, who were reported from Bloomington, Illinois, last night as on the way to this city, were not located. It is well understood, however, that whatever their mission they are not here acting alone. Hitherto the western roads have acted in unison in important movements, and there is said to be no likelihood of a departure from that practice.

That there will be a general strike whatever the developments over the wage question railroad officers here thoroughly disbelieve. Railroad employes, they say, are too fond of pacific measures to resort to the expedient of tieing up the nation's railroads.

Mr. Slason Thompson, in charge of the Western Railway Bureau, while professing lack of knowledge of what may be going on among the employes, said it would be most unfortunate and unopportune to have a demand for a sharp increase in the wage scale at this time, when the railroad companies are just beginning to recover from the depression of 1907 and 1908. The buying of new equipment, he said, had been practically suspended and work on projected extensions had been checked.

The railroads are now on the point of getting back to the more prosperous conditions that prevailed prior to 1907, and they should be permitted, said Mr. Thompson, to become thoroughly recuperated before new demands be made on them.

On the other hand the employes feel that conditions have improved sufficiently to warrant them in demanding a larger share of the new prosperity.

Prof. Metchnikoff, as our readers well know, advocates the drinking of much fermented milk to check the intestinal putrefaction of food, and thus prolong life. In furtherance of his end, bonbons have been prepared, consisting of a lactic-acid product surrounded by a sweetened chocolate coating. The sugar of the coating assists in lactic-acid fermentation.

An alloy which may have a considerable value for steel processes is now manufactured in the electric furnace in France. This is the manganо-silicide of aluminum, formed a manganese, silicon, and aluminum, containing generally from 1 to 2 per cent of iron and 0.25 per cent or less of carbon. Sulphur and phosphorus are practically absent. The new alloy has been found to answer very well as a de-oxidizing agent in steel making. During the refining it is transformed to silicate of manganese and aluminum, giving a very fusible slag which is easily separated from the melted metal. It is claimed that the steels which are obtained by the process are very homogeneous and are free from porosity. The proportion of the new alloy is about as follows: Manganese, 75 per cent; silicon, 37 per cent; and aluminum, 18 per cent. In the steel process, 100 parts of alloy combine with 71 parts of oxygen to give 171 parts of slag.—Scientific American.

Dante's Ghost in Florence House

Recent occurrences in the house in Florence where the poet Dante was born probably will make other people in the more prosaic walks of life chary of taking up their abode under roofs which have formerly sheltered celebrated persons, or at least will make them very careful what trade they pursue when inhabiting such famous homes, says the Kansas City Star. The one trade most to be avoided in such circumstances appears to be that of blacksmith, judging from the uncomfortable, not to say painful, experiences which the smith now living in Dante's house, whose shop once formed the bedroom of the poet, has just had.

Besides most mysterious noises which were heard all over the house, sufficiently disquieting to all good Florentines, and uncanny carrying-on by his implements, which acquired the uncomfortable habit of rising from where they had been laid and placing themselves safely out of reach, causing some very explicit remarks by the blacksmith and his attendants, the most alarming manifestation of the presence of a ghostly visitor made itself felt literally the other day. A big hammer started mysteriously from the bench and dealt the blacksmith a heavy blow on the head, he says.

After a few days of exciting episodes of which the above are a few examples the inhabitants of the house had had enough, and the two assistants of the blacksmith, who are believed to be powerful mediums and the innocent cause of these phenomena, decided to hold a seance. They therefore summoned two other mediums and sat down to discover the wishes of the spirit, which was evidently as much disturbed as themselves. The spirit obligingly complied with their wishes, and on being summoned in the usual way revealed himself as the ghost of the poet Dante, and handed over to them a piece of parchment covered with writing.

URGES INSPECTION ON MEDICAL BASIS

Dullness of Scholars Due, Declares Educator, to Physical Defects

SAN JOSE Nov 24—Asserting that nearly all the cases of dullness among the pupils of the public schools are caused by physical defects of the scholars City Superintendent of Schools Alex Sheriffs yesterday addressed the Teachers Institute of Santa Clara county now in session at the State Normal School in this city and offered as a remedy the plan of physical examinations of all the pupils of the public schools

Superintendent Sheriffs offered in support of his assertion statistics of Eastern schools in which medical inspection is enforced He said that if the plans were placed in operation in San Jose that within twelve years the records in the public schools would be perfect

PRIVATE EXAMINATIONS

Sheriffs discussed the methods of making the necessary examination of school children and said that they should be conducted in private so that the child's school fellows would not know the defects He urged that parents be present at the examination and when defects were found the child should be sent to the family physician

In the cases of the poor Superintendent Sheriffs said that the physicians of the county should devote one hour each week to the treating of such cases

Are our high schools serving the best interests of the people" was the subject discussed by Professor F F Brownell principal of the Gilroy High School He traced the origin of the high schools and said that they were inadequate to the needs of the poor and strived only to aid in the cultured education of professional men and women He advocated placing more of that work in the colleges where he said it rightly belongs

When The Stomach Stops

Working Properly Because There Is Wired to It "Stuart's Dyspepsia Tablets to Set It Going Again.

A Trial Box Free

THEY CALL it flatulency but unprofessional folks know it as wind on the stomach and a most distressing state of things it is It is a serious condition of this great motor organ Always annoying and painful in the extreme at times often leading to bad and fatal results The stomach embarrassed and hampered with wind cannot take care of its food properly and indigestion follows and this has a train too appalling to enumerate The entire system is implicated—made an active or passive factor in this trouble and life soon becomes a questionable boon

ALL THIS IS EXPLAINED in doctor books how undigested food causes gasses by fermentation and fomentation in which process some essential fluids are destroyed—burnt up—wasted by chemical action followed by defective nutrition and the distribution through the alimentary tract of chemically wrong elements and as a consequence the starved and enervated system is starved Plenty of food you see but spoilt in preparation and worse than worthless

A DERANGED STOMACH is the epitome of evil nothing to find it responsible from it but the gas it generates is probably its worst primary effect and the only way to do away with this is to remove the cause SMART-WEED SIA TABLETS go to the root of this trouble They attack the gas making foods and render them harmless Flatulence or wind in the stomach simply cannot exist where these powerful antiworking little tablets are in evidence

THEY WILL MAKE that stomach purpose to attack gas making foods and convert them into pure nutriment This their province and the whole book could be written on it and then not all told that is done will profit one sufferer from dyspepsia It will mention the years of patient and earnest effort to arrive at it—the innumerable experiments made the mental correctives to be applied and finally make it full first class

STUART'S DYSPEPSIA TABLETS are not alone in their field but well the folks as will for they are one who carries hearty food and wants neither burden nor run no risk of bilious attacks acts like a charm and makes the mere living action a delight and pleasure They keep the stomach active and energetic and ever and willing to do extra work without special labor or effort To forget this Well people are often reminded of it the STUART DYSPEPSIA TABLETS bring them in mind

A FREE TRIAL PACKAGE will be sent any one who wants to know just what they are how they look and taste before beginning treatment with them After this go to the local store for them everywhere here or at home one or 50 cents a box and by getting them at home you will save time and postage Your doctor will prescribe them if he say there are 10 000 dollars using them up when do know what is the matter with yourself why get the expensive prescription? SWIMMING LESSON PERFECTLY AWFUL

Annette Kellerman's Daring Discourse Delights Large Class of "Girls"

NEW YORK, Nov 24—"The only bones about me girls are the ones that nature gave me, said slim svelte Annette Kellerman yesterday as she addressed a big audience of women in the Colonial Theater

The young swimming Venus looked—in a tight-fitting black velvet gown—as if the most expert of corsetieres had molded her into the creation But she proved in startling fashion that this wasn't so

I'll just take this thing off said the confidential Annette—referring to the gown and suiting the action to the word she revealed herself in her black swimming suit

Then I'll just rip this thing down the side and show you that there's nothing underneath—but me and she did that too

Of course there wasn't a man within seeing or even hearing distance

This was purely an affair between Annette and the women who were young middle aged and old and with widely varying degrees of pulchritude but who to the breezy swimmer were all girls They were there because they wanted to know how to be beautiful and thought Annette could tell them

It's going to be a perfectly awful informal lecture said Annette and it surely was

If more girls would swim and dance and care for athletics instead of rushing into matrimony as the only job in the world there would be fewer divorces said Annette

The perfectly awful informal lecture wound up with one of Miss Kellerman's swimming exhibitions in her glass tank and many a woman went away vowing to learn to swim if she hadn't broken her neck to do it

GOULD TO BATTLE WITH HILL LINES

Sacrifices Missouri Pacific to Win Traffic Away From the Burlington

SAN FRANCISCO Nov 24—Rapidly developing traffic plans of the Western Pacific indicate that the Gould management aims to unite the Denver and Rio Grande with the new road in freight and passenger traffic and divert the business between Denver and the Pacific Coast from the Missouri Pacific and other Eastern Gould lines in order to build up a system with other roads at Denver and bring to the Western Pacific-Denver and Rio Grande route all the Western traffic not controlled by the Harriman system

FIRST STEP IS TAKEN

In order to accomplish this the first necessary step has already been taken in the divorce of Gould's Missouri Pacific from Gould's Denver San Francisco line so far as traffic arrangements are concerned Agents are being appointed to represent the Western Pacific and Denver and Rio Grande while other men have been given positions as traffic gatherers in the West for the Missouri Pacific

This leaves the men representing the San Francisco Denver line free to route shipments over any line east of Denver which may be linked with the eastern end of the Gould line and part of the compact which will bring these other lines into the agreement is that the agents of the Western Pacific Denver and Rio Grande line shall not favor the Gould connections east of Denver in routing shipments

HILL THE BIG FISH

Naturally the big fish that Gould Jeffery and Schumacher are angling for is James J Hill and a traffic arrangement with the Burlington at Denver to which may be added later a physical connection with the Oregon Trunk Hill line at this side of the Berkeley pass

If Gould felt that he was individually strong enough to grapple with the Harriman system in the battle for San Francisco and Pacific Coast freight he would obviously hold all the traffic to his own lines and treat the Burlington at Denver in precisely the same manner in which Harriman treated him when he found himself forced to build through to the coast

Kissing Pictures as Exhibit

Man Asks Divorce, While Wife of Another Seeks Separation; Co-Respondent Only Made Tea.

NEW YORK.—A photograph of a man and woman sitting on a piano stool kissing each other, with the words "Will you practice this with me?" under the picture, was one of the chief exhibits yesterday in the divorce suit of Cyrus F. Axtell against Amelia E. Axtell, on trial in the Supreme Court before Justice Dayton and a jury. The picture, which was on a post card, it was testified, was addressed by Mrs. Axtell to William S. Smith, the co-respondent. Smith is a bookkeeper in No. 72 Fifth avenue. Axtell is an automobile salesman. Smith was in court yesterday, and so was Mrs. Smith, who, on the strength of the kissing-picture postal, is suing her husband for a separation. Also in court, glaring at Mrs. Axtell, were several members of the Daughters of Liberty, of which she is a member.

In the summer of 1900 Axtell, who was then a chauffeur for a millionaire who has a summer home in Rhinebeck, up the Hudson, took his employer on a three-week trip. When he returned unexpectedly to his home, in No. 762 Tinton avenue, The Bronx, his wife was away, he said, but he found Smith's pipe on a table and Smith's coat in a closet with the kissing picture in one of the pockets. Axtell hid behind the piano, and when Mrs. Axtell and Smith came back he pummeled the bookkeeper. Axtell was arrested, but was discharged in the police court, the Magistrate saying Smith did not get half enough punishment.

The janitor of the Axtell apartment testified a man resembling Smith often called there. Mrs. Sarah E. Hall of the Daughters of Liberty said she saw Mrs. Axtell and Smith at a picnic of the order in the Manhattan Casino in July, 1908. Mrs. Smith, wife of the co-respondent, testified she once went into her kitchen and found Mrs. Axtel, in negligee, sipping coffee with Smith.

Mrs. Axtell said she had known Smith ever since he was a boy. She went to the Smith home as a trained nurse to care for Mrs. Smith, she said. She said she never got a chance to tell her story in the police court when Axtell was there for thrashing Smith. Smith, she said, boarded with her at $7 a week after her husband told her to go to Hades and left her Smith, she said, made tea for her when she was ill. She denied any improprieties. The trial goes on today.

Has Tried All Kinds of Wives--Says Matrimony Is Cood in Moderation

NEW YORK —"Matrimony is like good, old whisky," said John Jacob Tremper. "It's all right when it is taken in moderation"

Tremper, 62 years old, intelligent, with some education, is charged with bigamy and under arrest at Yonkers. Police Lieutenant McGowan and Detective Nealy were questioning him, when he astounded them by saying that he has married so many women that, really, he cannot remember the names of some of whom he vowed to love, honor and maintain.

He talked to the policemen in a grandfatherly way and as an expert on matrimony, saying, in the course of his confession:

"I think I am qualified to talk about matrimony, for I have married and have lived with wives of all ages and of all dispositions, or rather, of all tempers. Most of my wives were widows with money, which goes to show that widows are not so sophisticated as most men think Indeed, I think that a widow who marries again is foolish; freed once she willingly becomes a slave again.

"But I should not call any one 'foolish,'" added Tremper reminiscently; "I think I must have been crazey when I married some of my wives. But I left them as soon as I could. My advice to other men is to go slow about marrying"

Tremper's memory is pretty good as far back as 1898. In eleven years he married a Mrs. Lyman of Utica, N. Y., at Camden, N. J., 1898; Susie A Meyers at Westminster, Md, in August, 1900; Louise Culbert at Wilkes-Barre, Pa., in 1905; and a woman in Camden N. J., in June, 1908. He called himself Kerster at this connubial incident.

It was this woman, middle aged and well dressed, who had him arrested in Yonkers She told the police he had disappeared from their home at Norwood, N. J., but a letter told her vaguely that he was in Yonkers, so she hurried there.

In the station house she rushed to Tremper, embraced and kissed him. He thrust her away, whereupon she flourished her marriage certificate under his nose

"My favorite wife was Susie Meyers," said Tremper with the air of an art connoisseur, discussing the gem of his collection.

"She had a sweet disposition; she was tractable and obedient, and I could have been very happy with her But my very first wife heard of my marriage and pursued me to Maryland.

"Why does any woman chase after a man who has left her? It must be for spite, for if she had any sense she would know not only that he is tired of her but that he is unworthy of her. He proved that by leaving her and she should be glad to be rid of him.

"I left my first wife because she nagged me nearly to death to give her more money than I earned. She had me sent to jail for seven years for marrying Susie Meyers, but by good behavior I got out in less than five. Now here I am again accused of bigamy.

"The unfortunate part of it is that I am engaged to marry a really nice woman named Marie E. Maines, who lives at Voluntown, Conn. We exchanged vows very recently It was a case of love at first sight—with her—and I fear she will be greatly disappointed."

Tremper's first wife was named Wilson, they lived at Newburg, N. Y., and she presented him with four children. The family lives at Newburg now

"Anyhow I used to be a sailor," laughed Tremper, "and a sailor has a wife in every port,, you know I served in the northern navy during the civil war. I was on the union sloop Nereus when she fought the Confederate ram Albemarle, but that was nothing to a fight I had with one of my wives—what the dickens was her name? Well, no matter.

"I was commended for gallantry in the second attack on Fort Fisher; now I'm locked up for being gallant with the ladies"

Tremper is being held for extradition papers from New Jersey.

Mrs. Scott's D. A. R., Headquarters

Mrs. Matthew T. Scott, president general of the Daughters of the American Revolution, has opened elaborate headquarters in the Arlington hotel in Washington. Mrs. Scott has found it difficult to govern the Daughters when she is right on the ground, and utterly impossible at long range. She has, therefore, closed her beautiful home in Bloomington, Ill., and during her term as president general she will call Washington her home. She has a huge suite in the big hotel, and every room is handsomely furnished The most elegant of Mrs Scott's art treasures have been sent on to embellish the apartments, and to these have been added the fine furniture which Mrs. Charles G. Bromwell had in her Washington home. Mrs. Bromwell is the younger of Mrs Scott's two daughters, and is now living in Detroit. Mrs. Scott, among other wise regulations, has decreed that the National Board of the Daughters shall meet only once in two months, instead of once a month, as heretofore. She has adopted a system by which the themes to be discussed are decided before the meetings. This is to do away with eternal wrangling and to save tim

New Servant Girl Problem

In foreign countries the idea of employers' liability has gone so far that a woman servant who fell down a stair in the house where she was employed has been pensioned for life, her injuries being serious enough to cripple her. That fact was reported to the commission now probing the the question of industrial accidents in this state. At present there is practically nothing which binds the employers of servants to make any provision for women injured in domestic work. But it has been suggested that under a compensation law for working persons servants will be protected as well as all other employes. If such a law is passed the servant girl problem will have to be studied in a new phase, especially if some of the servants are willing to risk bodily injury on the chance of a pension.

CIRCUMSTANCES

Some lives, as though by fairy fingers
slight,
With softest touch—with finest stuffs are wrought
In sunny spaces set to catch the light,
They gleam with conscious beauty—all untaught.

Some lives are builded with a heavy hand—
A touch that crushes, if it fail in skill;
Strong and rough and all unfinished stand
In some neglected corner, dark and still.

BALM FOR OLD MAIDS Would Make Men Marry

MONTCLAIR, N. J.—Geo. W. da Cunha, who is an advocate of universal suffrage, compulsory marriage by lottery, and other social innovations, has received a letter of commendation from the girls of a New York department store. In part, the letter says.

"Your proposals to have marriages made compulsory through a municipal lottery would result in no more shelf goods to be after a time put on the bargain counter at any price. To a large extent your plan would removed women from competition with men in the industrial field and make man once again, as he should be, the breadwinner.

"It would be a sure preventive of race suicide. It would increase the population to such an extent that in a few years we could put up the bars on immigration, and would in time bring forth a strictly American type to take the place of the fast disappearing descendants of colonial days. At present the American is neither fish, flesh, fowl, nor good red herring. Your stipulation that 'no children having come out of the union of any couple, either party, on giving 30 days' notice prior to the expiration of three years, could have the marriage annulled and have their names again placed in the lottery wheel,' is a good idea, as it would do away with the divorce evil"

Mr. da Cunha has received many communications commending his plan to have the municipalities to conduct lotteries by which marriageable persons would be mated by chance

Rates College Women High

That the college woman is better equipped in every way for the duties of the home and the general uplift of humanity, and makes a better wife and mother than her less educated sisters is the contention of Miss May C. Cary of Bryn Mawr College Miss Cary has been gathering statistics concerning college women from all parts of the country. She asserts they show there are no more marriages when men and women are educated together than when they are educated separately; that 77⅞ out of every 1000 college women enjoy excellent health and that only eight out of the same number are in poor health. She says that college women are in general stronger and healthier than those who have not attended college, that they marry stronger men and choose their mates more wisely, and that few of the marriages of college women turn out unhappily. Although, as a rule college women marry later in life than their non-educated sisters, Miss Cary asserts that statistics show they bear more children than non-college women. Their homes are kept up better, their husband's comfort looked after more wisely and in every way prove themselves more competent helpmates than those women who have not had the higher education, is Miss Cary's summing up.

HERRIN TO FILL LOVETT'S OLD POST

Will Assume Legal Headship of Entire Harriman Railway System, It Is Said

The Examiner today says

W F Herrin general counsel of the Southern Pacific is to go to New York and assume the legal headship of all the Harriman system in the place left by Judge R S Lovett Herrin le was promoted to the post left vacant by Harriman's death

Such was the news that came thro ugh a confidential and responsible sour yesterday and it was declared in Wall street to be the view of Herrin as a lawyer and organizer has practically won him

On this news came a lot of speculation as to who would have Herrin's place in California One rumor had it that United States Attorney Robert F Devlin would resign the Government service and step into Herrin shoes and still another has it that Herrin is going to retire entirely from active

Confidential members of the Southern Pacific directorate however declare officially that he has no intention whatever of resigning the presidency of the railroad to which he has not spoken as if a good friend at that direction would be turned down

A natural supposition has been that Peter F Dunne would be the legal assistant for Herrin but he will step into his old shoes in San Francisco Then the name of Benjamin Ide Wheeler might be offered Dunne's place But it has been said that Dutch Prime is always ready to help Herrin should he would call on him directing the railroads corporate schemes of politics

On this the loss to the theory bear Divine Right Lovett runs the legal department and Harriman Herrin's first lieutenant in politics would be recognized as the head of a separate political machine that has been the practical ruling of the railroad politics ever since Herrin began to use Herrin in weightier affairs and so it is presumed will keep out of politics and his duties even if is not given such a free pass Herrin's salary and weighted title

SON OF MERCHANT RENAS MAKES THRILLING RESCUE

Victim Has Four Fractured Ribs and is Severely Bruised

BERKELEY, Nov. 24.—Unhorsed by the animal slipping on the muddy street and with his foot caught in the stirrup, Manuel Grace, a rancher living near San Pablo, was dragged about four blocks in University avenue yesterday afternoon. He now occupies a cot in Roosevelt hospital with four ribs fractured and severely bruised all over his body. The frightened animal was stopped by J. J. Renas, son of the prominent West Berkeley grain merchant who took his life in his hands in seizing the bridle of the horse.

Had it not been for the prompt action of young Renas, Grace would undoubtedly have been dragged to his death. The man was on his way to the pound to get several cows being held there when the horse slipped and Grace was thrown. His foot became entangled in the stirrup and this frightened the animal. The horse ran for four blocks, from Fourth to Eighth streets.

Young Renas was on one of his father's delivery wagons and he steered his team in front of the runaway in hopes of stopping the animal. Failing in this he jumped from the wagon and seized the horse by the bridle. He struck the terrified beast across the nose with his wagon whip and finally brought him to a standstill. Grace, who was in a semi-conscious condition, was disentangled and hurried to Roosevelt hospital where Dr. J. W. Peck attended him. The man was not internally injured and will recover.

SEDATE TURKEY SOARS UP PRICE LIST; DINERS WEEP

Patron Bird of Thanksgiving Dinner Brings Anguish to Oakland Homes by Its Dearness

The delectable turkey, patron bird of the Thanksgiving dinner, is holding itself considerably dearer this year than it did a twelvemonth ago, and the generous pater familias who is preparing to provide the traditional menu for his family board tomorrow must expend 2½ cents more for each pound of the bird which graces his mammoth platter than he did last year. Thirty-two and a half cents a pound is the price which the Oakland produce merchants are quoting today, and the supply of birds is so limited that it is feared the supply may not be equal to the demand this evening. So hurry, turkey lovers of Oakland, and get your bird ere nightfall, or you may perforce have to be content with chicken, or duck, or hamburger steak for your Thanksgiving dinner.

A year ago the price was stable at 30 cents a pound and there were turkeys to spare, but alas for the frailty of the poultry crop, everything is different this fall. The gobblers are literally being gobbled up almost as fast as they reach the local market, and there promises to be a turkey famine in the Oakland produce markets by tomorrow morning.

NO EASTERN BIRDS.

According to Phillip & Leisz, the Twelfth-street poultry merchants, the high price of turkeys this year is due to the fact that the coast markets have to depend entirely upon the California supply, whereas in past years there has usually been a large influx of Eastern birds to the coast cities. This fall, however, the Eastern turkey crop is scarcely sufficient to supply the demand in that section of the continent and no attempt has been made by the poultry raisers there to ship their birds to California. In consequence the price of the California turkeys has soared several points above its accustomed notch.

Only about two-thirds of the usual number of turkeys offered for sale in San Francisco during the Thanksgiving season have been handled by the trans-bay dealers this year. In cheap turkey years San Francisco consumes as much as 750 tons of juicy birds at the proclamation of the President, but this season not more than 500 tons of turkey will be handled by the merchants of that city.

IN SAN FRANCISCO.

In the San Francisco commission district this morning prices ranged from 28 to 30 cents per pound. This will oblige the consumer to pay anywhere from 30 to 35 cents per pound for the bird that graces his table on Thanksgiving Day, depending, of course, on the fatness or leanness of the fowl, and for extra large, fat gobblers the price may easily ascend to 40 cents per pound, depending largely upon whether the ancestors of the retail dealers who traffic in turkeys were were pirates or philanthropists.

EASTERN PRICES CLIMB.

CHICAGO, Nov. 24.—The price of Thanksgiving Day turkey in Chicago has again been advanced. In 1907 it could be bought for 25 cents a pound. In 1908 it climbed a little higher, selling at 26 and 27 cents. This year it will cost from 28 to 30 cents a pound.

Ten years ago a Chicago department store advertised the following bill of fare for $1.95:

Nine-pound turkey.
Enough plum pudding for four.
Mince meat enough for three pies.
Bunch of celery.
Turkey seasoning.
Pound of parsley.
Quart of cranberries.
Pound of mixed nuts.
Three pounds of sweet potatoes.

The same bill of fare this year will cost $4.25.

Vegetables are much cheaper than in recent years. Cranberries can be had for $7 a barrel. Last year they were $12.

BLESSING IN JAIL.

LANSING, Kans., Nov. 24.—For the first time in the history of the Kansas State penitentiary a "blessing" will be asked upon the food at the prisoners' dining tables Thursday morning. Thanksgiving Day has been chosen by Warden J. K. Codding as the day on which to start the custom, and twice each day thereafter grace will be said.

STUDENT BODY FREE FROM DEBT

Graduate Manager Merritt Wipes Out $17,500 Obligation

RECEIPTS FROM TWO GAMES DO THE TRICK

Bank Now Has Almost $1000 to Credit of the A. S. U. C.

BERKELEY, Nov. 24.—Through the judicious management of Ralph P. Merritt, graduate manager at the university, in the last two years the associated students body is today free from debt and has a balance in the bank of almost $1,000. Not in years has the A. S. U. C. been free of incumbrances and only two years ago there were notes against the organization for $17,500. Merritt is given all the credit for wiping out the obligation and the student body is loud in its praise of him.

The news was conveyed to the executive committee of the associated students last night in the regular monthly report of the graduate manager. The task of lifting the debt of $17,500, the amount of the note held against the A. S. U. C. by the First National Bank August 1, 1908, when Manager Merritt assumed control, was accomplished by three different payments. After the football season last year, it was reduced to $9500 in December, May 1, 1909, this amount was decreased to $8000. Yesterday the last cent of debt was wiped out and $885.81 deposited in the bank, which had been the student's creditor since the building of California Field.

TERM REPORT LATER.

Last night's report was only the monthly report of the graduate manager. The term report to be presented at the A. S. U. C. meeting in December, will show more in detail how the money was raised, and will also include an estimate of the equipment owned by the students.

Manager Merritt's report was as follows: Bank balance, $8520.12; receipts big game, $14,061; training quarter sales, $21.75; football show receipts, $408.20; Britain & Co., credit balance, $59.90; football program receipts, $250; total, $23,320.97. Uncancelled checks, $9329.94; First National Bank loan, $800; interest on above to date, $32; unpaid bills, $5073.22; total, $22,435.16, cash balance, $885.81.

From the big game this year, California's share, over and above mutual expenses, was $14,061. Manager Merritt's statement is as follows: Value of tickets, $33,686.50; unsold tickets, $4240, total, $29,446.50. Mutual complimentary tickets, $697; mutual expense, $637.50; total, $1,324.50; share due each university, $14,061.

ANGRY ROOMERS CAPTURE PAIR OF SUSPECTED THIEVES

Couple While Ransacking Lodging-House Are Trapped and Police Called in To Make Arrests

SAN FRANCISCO, Nov. 24.—Captured by a crowd of angry roomers in a lodging house at 911 Howard street, at 4 o'clock this morning, Herbert McCay, a carpenter, and Richard Harding, a clerk, were taken into custody by Policeman Hays and booked at the southern station for burglary. The pair would undoubtedly have escaped had not a number of men aroused by the landlady, Mrs. A. Taron, blocked their progress to the street and held them prisoners in their room while an alarm was being turned in and the police summoned. This was done by the blowing of police whistles and the firing of shots into the air, and the noise so aroused the neighborhood that it was believed that a riot had occured and a special squad was sent from the station nearby.

McKay and Harding rented room number 49 last evening, and this morning, after H. Grimshaw had left for his work, they entered his room, which was next their own, and were engaged in ransacking it when Mrs. Taron came upon them. She ran to the street to seek a policeman, and the culprits took refuge, but when caught. While they were in their room under lock and key, they threw to a lot below their window, three cuff buttons, a watch, a tack hammer, and a pair of scissors and a manicure set, all the property of Grimshaw. They showed considerable resistance when Policeman Hays and Cronin rushed in to place them under arrest.

STUDENTS EAGER TO SEE NEXT PELICAN

First One Since Fay's Dismissal Will Appear on Next Friday

MANY ASSERT KERGAN IS AWED BY A. S. U. C. ACTION

His Friends Insist College Comic Will Be Daring, But in Decent Way

BERKELEY, Nov. 24.—The next issue of the Pelican, the University of California funny paper, and the first under the editorship of W. W. Kergan, will make its appearance Friday on the campus, and it is being eagerly awaited by the student body because of the events following the last issue. It was the last issue of "Pelly" that caused the suspension of Rollo E. Fay, then editor, for the remainder of the college year. Fay offended the executive committee of the associated students by the publication of a rather disgusting satire on Robert W. Chambers "The Danger Mark."

Shortly after Fay's suspension from college, Kergan, who was then manager of the paper, was elevated to the editorship, and it was whispered about the campus that hereafter each issue of the Pelican would be passed upon by a censor named by the executive committee of the A. S. U. C. and the faculty committee. This report gained much credence and tended to make it appear that Kergan is only a figurehead. Kergan became incensed when this report got into the newspapers and indignantly denied it through the "letter column" of the Daily Californian, the college daily.

THINK IT WILL BE TAME.

In this open letter to the students Kergan announced that no article or joke appearing in the Pelican would be passed upon by any other than himself. He said he would assume all responsibility and would stand or fall on every word that is published in the next issue of the comic. Because of this letter the students are anxious to see the initial Kergan copy. There are many on the campus that believe the forthcoming issue will be a very tame affair. They think the summary punishment dealt Fay will have its effect and the next "Pelly" will be lacking in that daring which has made it interesting in the past.

Friends of the present editor assert Kergan has not been awed by the dismissal of Fay and that next Friday's Pelican will be as bold as any ever issued, but that it will keep within the confines of decency. In other words, it will be pointed and clever in a genteel way. Meanwhile the students are waiting.

TERROR TRAILS MAN OF MYSTERY

"Man With Horrible Mouth" Appears in New District; Police Baffled

ALAMEDA, Nov. 24.—The excitement created by the mysterious "man with the horrible mouth," discovered to the police through the agency of F. N. Delanoy, is assuming the proportions of a reign of terror.

The mysterious stranger appeared in two different localities yesterday afternoon, and employing the same tactics, attempted to enter two homes. He is believed to be some insane person.

A woman who refused to give her name, but who said that she lives near Santa Clara avenue and Bay streets, called up the police yesterday afternoon, and describing the man, asked for police protection.

"A man just came to my door," she told Chief Clerk Jacoby. "He tried to force an entrance to my house. He acted suspicious. I believe that he is crazy."

And just a few minutes later Mrs. P. Axtel of 1819 Sherman street made a similar report to Patrolman Willing. Investigations started by the police in each instance proved futile.

The excitement that is being occasioned by the appearance of the man is illustrated in a report filed by a woman living at 1703 Encinal avenue.

"There is a man standing at my door who appears to be demented," she told Jacoby. "Send an officer."

Sergeant Kamp and Detective Wahmuth answered the summons and upon investigation found that the stranger was simply a collector from Oakland.

CHARITY WORKERS GATHER IN MONEY

More Than 600 Women Canvass the 8000 Homes in the College Town

BERKELEY, Nov. 24.—Nothing daunted by the adverse and disagreeable weather conditions which obtained today, more than 600 of this city's prominent matrons and young women canvassed the eight thousand homes in Berkeley in behalf of the Charity Organization Society and the financial result up to noon today far exceeded the most optimistic expectation.

Today is Charity Day in the college town and the citizens are giving liberally because they know it is being devoted to a worthy cause—the poor and deserving of this city. The managers of the venture are jubilant over the success that has attended their efforts and declare Charity Day has come to stay. Repedition has worn out Tag Day and the members of the Charity Organization Society believe they have found a better substitute in Charity Day with its more effective way of soliciting by canvassing the residences.

Early this morning Mrs. C. H. Rieber's big army started its assault upon the Berkeley homes and it is a safe gamble that none was overlooked. If there was no response to the front door, the "soldier" went around to the kitchen entrance. The army had previously been divided into divisions and companies. The city was divided into districts. Thus was the attack ably planned by the generals and the canvass was systematically made.

No one has any idea of how much will be taken in by the time the day is ended. That the amount will be large everyone admits and one of the leaders laughingly remarked, "We have taken in so much money already that I really believe it will take us a week to count it."

Schaeffer's choice as head coach for the season of 1910 was by a unanimous vote of the committee. The matter of securing an assistant, however, was deferred to a later meeting. The contract with "Mother" Howe, however, will not be renewed. LIFE WORK STOLEN, WOMAN FACING POVERTY ENDS LIFE

Writer of Comedies, After Long and Unproductive Efforts to Earn Living, Commits Suicide

ST. LOUIS, Nov. 24. — Mrs. Grace Hubbard, whose ambition was to add to the world's laughter as a writer of comedies subtracted from it only tragedy. Heart broken over the alleged theft of her most elaborate sketch by a theatrical manager, she committed suicide yesterday.

Her body was found early today in a bare flat in an apartment building. The janitor said Mrs. Hubbard had told him of the loss of her sketch.

"I took the work to a St. Louis theatrical manager," she told the janitor, "and he asked me to leave it for a few days. When I returned he said that it was not available, but later I saw my act performed, word for word. In my disappointment I had torn up the original manuscript and so had no redress."

When the police broke into the flat the empty rooms showed how the woman had tried to keep up appearances while waiting for her pen productions to bring in financial returns. The furniture, dishes, linen and jewelry had been sold, the only articles left being a bed and a chair.

GETS UNADDRESSED NOTE CONTAINING $1000 CHECK

ALAMEDA, Nov. 24.—"Truth is stranger than fiction," said a reflective philosopher of the old school; and the wisdom of the saying has been exemplified in Alameda. Incidentally the example reflects credit upon the United States mail service.

When Frank Carrick, a resident of Ingomar, Merced county, addressed a letter to Hiram Harms of this city, he did so in the best of faith. But, as the letter was of some importance, Mr. Carrick was just a wee bit nervous—so nervous, in fact, that he left the name of the city to which the letter was to have been set from the envelope. It looked like this:

MR. HIRAM HARMS,
1431 Park street.
Care Kreig & Halton.

When Harms received the letter, he thought it to have been mailed in the local office. He thought it of no importance. He laid it aside.

Two hours later Harms opened the envelope. It contained a check, drawn on the Bank of Newman, in the sum of $1000.

And now Joe Kreig, whose faith in Alameda is unbounded, wants to be shown the man who said that Alameda wasn't on the map.

He had been ill for some time, being a sufferer from tuberculosis, and has spent most of his time in the past two or three years traveling in search of health. The interment was at Lone Tree cemetery. Mr. Cowing was 46 years of age.

KEPT PRISONER BY AWFUL HUMOR

Whole Body Covered and Head So Bad She Could Not Comb Hair—Sight Affected—Neighbor Begged Her to Use Cuticura—It Cooled the Itching Flesh and

BROUGHT REST, SLEEP AND A PERFECT CURE

"Words cannot express the awful skin disease I suffered with. My whole body was covered with it. My head broke out so that I could not comb my hair. For a month or more I suffered with a terrible sore throat. When I should lie down at night my eyes would stick together and I would have to bathe them before opening them each morning. I scarcely could see for my eyes had failed me from the effect of the skin disease. I tried three doctors, but they gave me no relief and then I tried all kinds of things that I thought would do me good but I could find nothing. I was a perfect prisoner with the awful humor.

"One of my neighbors begged me to try the Cuticura Remedies, and I made up my mind to try them but not thinking that I would ever be cured. I would take a hot bath with Cuticura Soap and then apply the Cuticura Ointment. I found relief in a few days and in a month you could scarcely see a spot on my face. I felt like a new person. When I first began to use the Cuticura Remedies they cooled the itching flesh and brought me real good sleep and rest at night. I had suffered fully two years with the skin disease but now I am a well woman and in good health. I beg every skin sufferer to use the Cuticura Remedies. I cannot praise Cuticura enough because I thought that I would never get well again. Mrs. Cordelia C. Pitts, Newborn, Ga., Nov 24 and Dec. 21, '08."

Keeping the Hair

To prevent dry, thin and falling hair, remove dandruff, allay itching and irritation and promote the growth and beauty of the hair, frequent shampoos with Cuticura Soap and occasional dressings with Cuticura are usually effective when all other methods fail. Special and full directions accompany each package of Cuticura.

Cuticura Soap (25c.) Cuticura Ointment (50c.) and Cuticura Resolvent (50c.), (or in the form of Chocolate Coated Pills, 50c. per vial of 60) are sold throughout the world. Potter Drug & Chem. Corp., Sole Props., 135 Columbus Ave., Boston, Mass.

Any Cuticura Preparation mailed free, on request, telling how to treat the skin and scalp, and many of the skin troubles.

CENTURY-VALLEJO AND ST. MARY'S-SANTA CLARA FOOTBALL GAMES TOMORROW

WOLGAST ON SHORT END OF BETTING WITH LEW POWELL

New Comer Not One of the Sort of Fighters That Show Well in Training---Looks Like a Hard Man to Put Out---Graney Leaves for New York

BY EDDIE SMITH

LEW Powell went up another notch in the betting on the coming contest wherein he will be asked to meet that hard-slugging young newsboy of Milwaukee, Adolph Wolgast. The fans have come to look upon Powell as a great fighter and there is only one lightweight in the world who would rule a favorite over him and that fighter is the daddy of the class, Battling Nelson. The Battler would rule a favorite over the red-headed fighter for the reason that champions are always so in the betting, and because also he has won so many hard fought contests here in San Francisco that many of the fans have come to look upon him as invincible.

The coming battle between Powell and Wolgast gives promise of being a hard fought affair in which the winner will know that he has been in a fight. The fact that Wolgast is one of the sort of boxers who is willing to take a punch to land one has led many to believe that he will not get along very well with the red-haired boy. Powell has developed a snappy sort of right-hand punches that bid ill for the receiver and even though the new-comer looks to be a well-balanced fighter whose ability to take punishment will make it hard to put him out, Powell will rule the favorite and it is just probable that the fans will bet that he puts the newsboy out before the twentieth rounds has been reached.

There is plenty of chance for the fans to be fooled on the Wolgast lad however for he is not the sort of boxer to show off well in the training gymnasium and it may be that he will develop much more speed and hitting power when he is once set in action in a real contest. Most any kind of a second-rater can make a show of Nelson in the gymnasium, but let him try his hand in a real contest and see where he lands. This may be the way with Wolgast and it is this fact that will keep many a man from betting his bank roll on Powell.

WEBSTER ATTELL SCRAP

The verdict of the morning papers of Los Angeles went against Monte Attell in the ten-round championship bout with Danny Webster last evening. Two of the papers are reported to have declared the affair a win for Webster and one of the scribes said that he thought a draw just the right thing. The contest must have been a corker at that. Attell was no doubt the more scientific and Webster the harder fighter.

In the last contest between this pair Webster made a mistake in trying to outbox the champion and in this he was a failure. Last night he fought all the way and there is no doubt but that he was the aggressor and landed the greater amount of swings that made the fans believe he had the better of the going. Webster had a hard time in reducing to 115 pounds and is not at his best at that weight. The fact that he does have this trouble in making the bantam weight limit is proof that he is a great fighter when fighting at his natural weight. Monte Attell has been very busy fighting for the past few months and it may be that the little fellow has gone a bit stale and for that reason did not show at his best.

The real solution to the Webster Attell situation is to rematch the men for a twenty-round contest and in that number of rounds the championship may be decided. Virgil Garibaldi is looking for a good match to his December card and there is as fine a one as he can get.

GRANEY GOING EAST

Eddie Graney leaves tomorrow for New York to bid for the Jeffris-Johnson fight. For the past month Eddie has been hoisting that the contest will be staged and that it will be held in the City and County of San Francisco. What is bid will be no one has the remotest idea but it will be a big one for it is the opinion of the horseshoer that the number in attendance at the big affair will only be regulated by the size of the place. Or in other words, Eddie believes the bigger the place the bigger the crowd, a $150,000 gate is almost a certainty with him. Graney has lain awake a few nights scheming as to how to make money out of the affair and he believes that he is now in a position to bid higher than any of them at present after the match. It has been rumored that Graney is leaving for the purpose of trying to secure the refereeship for himself but this he denies and says that in case he lands the fight he would be satisfied to have his friend Jack Welsh at Graney will be opposed in the bidding by Tex Rickard and Tom McCarey.

WEST OAKLAND SHOW

The West Oakland Club management feel that they have signed a great card of sluggers for their show on Friday night and the fistic world generally has hinted that it will be a hot affair and Garibaldi and Smith have agreed that this show will be the best of the series. Both shows will be pulled off in the interests of the Peter must put the Chicago veteran to sleep. O'Neil of the Encinos has been fighting Vallejo Kid Sullivan. Both men have everything to gain by a win and the losing of the bout will mean good night to their drawing power and if this is not enough to make a man fight his best then nothing can make him show well.

Lehnhardts to Be Presented Tribune Cup At St. Marks Banquet

The Tribune cup for the champion team in the Tribune Boys' Amateur Baseball League will be presented to the winning Lehnhardts next Monday evening at a feast which will be held in the banquet rooms of the St. Marks Hotel.

The guests will gather around the festive board at 6:30 and at 8 o'clock the presentation of the cup will be made by Clem Arnold business manager of THE TRIBUNE.

It was originally intended to call the dinner bell at 8 o'clock but a change to an earlier hour was deemed more advisable in order to allow the banqueters a chance to get home at a reasonable time for it is intended to have an evening of feasting recitation talking and oratory that will take some few hours in the reading.

During the funereal gathering of the managers officials and promoters of the amateur organization it will be a sort of reunion in which the work of the past will be reviewed and the outlook for the coming season looked into.

There will be no dress suits or tuxedos but the usual clothes no formality, but that which bar hall regulates should be the possessor of after a glorious baseball season.

DR. CREAGH TOASTMASTER

Dr. Creagh of Alameda will preside over the table of plenty and as the toastmaster of the evening will see to it that every person of talent will do his duty. While he has not outlined publicly the program which he will follow nor the toasts that he will thrust upon the distinguished guests it is being whispered that he has a few numbers up his sleeve that will make everybody sit up and take notice.

After the awarding of the trophy by Mr. Arnold and the response by F. Johnhardt it is hinted that Mr. Merani will be called upon to tell the secrets of the spring business. H. F. Drake will follow with a dissertation How It Feels to be a Baseball Magnate. F. Alvarez has been allotted to duties of proposing the Talk Heard Down the Side Lines. Eddie Smith is burning the midnight hours writing out an essay on A Real Fighter Will Pass Baseball Questions. Refiners will sell pocket editions of Do's for the Fan and individuals give a few choice imitations. Charl. Keller will discuss His Champions while Byron Dudd will warble the following: I'm Glad I'm Can B a Wild It It's All in the Goods. William Zingg expressed a desire not to be included in the toastfest but Dr. Creagh is endeavoring to prevail upon him to speak a piece on Me.

J. Martinez and Eddie Carroll will do some fancy stunts on a baseball cycle to the delight each of their own invention. Captain Lhereux of the Lehnhardts will tell everybody How We Did It and William Van Horn will give the reasons why. We Didn't Do It. Warnholz and Budde are training their Caruso's for a duet entitled Oh Who Are the Hooligans, Them's Me. Otto Hagedorn will describe the Money Jam and the Fancy Jar With it the Dough.

ELABORATE MENU

Mr. Woodberry of the St. Marks promises to make the occasion one of sweet memory. He is preparing a nice menu with all the fancy dishes such as 'oysters with the drop shoot' wine on the side, potatoes a la 'one strike two strikes three strikes you're out and now you're in come again' many delicacies in the fruit line, fruits, vegetables etc.

Mr. Woodberry has consented to the use of one of the apartments of the main dining room which is just ideal for a celebration of this kind.

The guests who have been invited for the evening are as follows:

W. F. Dargie, Clem Arnold, John F. Conners, E. Lehnhardt, Eddie Smith, Baron Rutles, Dr. Creagh, H. F. Drake, William (Mel) Zingg, R. Enders, J. Merani, H. Alvarez, E. Carroll, C. Koefer, J. Martinez, W. Van Horn, O. Hagedorn, C. Warnholz, F. Lhereux and H. F. Dudde.

WINGED V'S IN GREAT FETTLE FOR BATTLE WITH LOCAL GRIDIRON WARRIORS FOR CHAMPIONSHIP

Tomorrow morning will decide whether the crack football team of the Winged Vs of Vallejo will make good their repeated boasts to keep the State championship in Vallejo when they clash with the fast aggregation of the Century Athletic Club of Oakland. The game will be called at 10:0 sharp and will be played rain or shine.

The weird gridiron of the Grove-street park at Fifty-seventh and Grove sts. will afford ample protection to the spectators also the contest will not interfere with the fans plans for Thanksgiving dinner as the game will be over in plenty of time for every one. The seating arrangement of Grove park could not be improved on and every seat will afford the fans an unobstructed view of the entire field.

The two teams will be well supported by their respective backers.

SPECIAL BOAT

Vallejo will come down in a special boat for the occasion the team being taken from First and Broadway to Grove street park in special cars. A special section has been reserved for them and the will make things lively for all spectators of the game.

They are full of confidence in their winning ability their team having played together for some four years having lost but seldom.

The Century boys however concede them nothing in this respect and are as fully determined to bring honors to Oakland. The different members of the Century team are determined to do or die and are sure of coming off with colors flying.

Captain Moir the Century quarterback, has the entire confidence of his team and under his cool-headed judgment and handling of his men will bring out the best talent there is in them. Harold Dow on left end is a tower of strength and Vallejo will find her end plays badly broken up should she attempt to hammer that end.

Manager Green with his assistants has all arrangements for the game fully completed and expects an enormous turnout of the fans of the good old American game. The game will be played rain or shine 10:30 sharp, at Grove street park Fifty-seventh and Grove streets.

The fans should not keep any one away as the covered grand stand will keep every one well protected.

The Vallejo boys played a great game with Berkeley high school during Portola week and excited much enthusiasm from the exhibition they gave of the game under the present rules. The team has become noted for its excellent teamwork.

The Oakland aggregation played a 6 to 5 score game last year at Vallejo and will attempt to redeem itself this year by winning.

The officials of the game will be named by William Reid president of the American football association.

Every effort will be extended to keep the side lines clear of the spectators and the delays which have been incident to most of the games this year, will be eliminated by the strictest enforcement of the rules which allows time to be taken out but three times each half. In short the official rules will be enforced to the letter.

Outfielder Beall Lands In Windy Metropolis

CHICAGO Nov. 24. — John Beall the big new first sacker possibility for the White Sox drifted in from California yesterday.

As for Rollie Zeller the San Francisco infielder whom Danny Long sold to Commiskey and his threat to go into independent baseball unless San Francisco gives him part of the bonus paid by Comiskey the latter said there was nothing in the matter he cared to worry about.

Unless he had an agreement with the San Francisco Club for a share in the purchase price" said Comisky," "he has no legal right to any of it."

Willis Joins Nationals. Ralph Willis has been engaged to finish out the California games with the Nationals, and will do his first twirling at Stockton next Monday afternoon November 29.

Spike Problem. New York Nov. 24. — For a fast game of ball John H. Heydler declares spikes are necessary. He also believes the provision prohibiting players from sliding into a base feet first is impractical.

Some other solution is necessary" said President Heydler.

Two Heats in Three Decide Trotting Race

NEW YORK Nov. 24. — Two out of three heats will hereafter constitute a victory in trotting races recognized by the American Association of Trotting Horse Breeders according to announcement made at the annual meeting of the association last night.

The proposal made last year for the establishment of a national stake for the trotting championship of the United States was renewed yesterday by Frank J. Kilpatrick of Santa Rosa, and by W. E. Stokes, of Kentucky. Mr. Kilpatrick urged that Pacific coast trotters should have inducement to meet winners of eastern events.

United States Senator Bailey of Texas, president of the association said that the plan would be taken up for action when stakes of $20,000 were guaranteed.

Senator Bailey was re-elected president.

On completing this service, which will be about three years, Lunghi expects to return to his athletic activities in this country.

Lunghi established a new record in the seven hundred yard race breaking a record which had stood for twenty-seven years. He also established a new half mile record and broke the record in a two-thirds of a mile race.

Harold Wilson England's fastest mile runner is also going back to his home country. Wilson who won the 1500 meter race at the Olympic games in London last year has not met much success in this country.

Oregon Team Asks Dates With Stanford Tossers

Baseball Schedule. Manager Burbank has received a communication from the University of Oregon requesting a baseball date for next spring, as that university is to make a southern trip for the purpose of meeting Stanford California, Santa Clara and other institutions around the bay.

At this early date the manager of the White Sox has written for a game. The baseball schedule will probably be compiled by Burbank during the Christmas holidays.

PERSONNEL OF SANTA CLARA TEAM IS NAMED BY COACH M'KENZIE

Fifteens of Two Colleges Resting on Eve of Great Battles and With Confidence Unbounded at Both Camps

Everything is in readiness for the big Thanksgiving game between the St. Mary's and Santa Clara College Rugby teams which will be played tomorrow afternoon at the Ocean Shore grounds, Eleventh and Mission streets. The only thing that is worrying the promoters of the gridiron affair is the weather. The drizzling rain of the past few days has made the field a little sluggish but unless there is a downpour between now and the time of the game the field can be worked into shape so as to make fast playing possible. Weather Forecaster McAdie expresses himself of the belief that the present showers will break away and that the weather will clear up this afternoon and tomorrow.

Both teams are spending today quietly, the coaches advising little or no work. The line up of the Santa Clara team was made known yesterday after practice by Harry McKenzie and the players assigned to positions were those who were expected to make the team. The real disappointment is that Parbour, the right wing three-quarter player, will be unable to take part on account of a bad ankle.

Barry	Lock
Hogan	Side rank
Roberts	Side rank
Jarrett (captain)	Rear rank

Substitutes: Ford and Goetter (forwards), McDonnell and Ramage (fullbacks), Kelly and Castruccio (backs).

The cleverest man on the Santa Clara line-up is 'Babe' Reams who will play outside five eighths tomorrow.

FOOTBALL RALLY

The student body of Santa Clara college held a football rally last night in honor of the newly selected college Rugby team, which will battle with the St. Mary's team on Thanksgiving Day.

The speakers of the evening were P. A. McHenry, president of the student body, Charles Budde, S. J., athletic director, Team Manager George C. Boles and Coach Harry McKenzie.

Referee Reading has visited both camps to talk over the rules. It is conceded by most Rugby fans that this official will have his hands full in rendering the decisions as the wing forward will keep him ever vigilant.

Last night in the gymnasium of St. Mary's college was held an enthusiastic meeting of the alumni of the Oakland college. The object of the event was to discuss ways and means to insure a large turnout of graduates at the big game with Santa Clara. Addresses were made by John Brady, a prominent alumnus of St. Mary's, Andrew F. Burke, Edward O'Dea and many others.

At the conclusion of the meeting the collegians rehearsed their yells and songs. The meeting was wound up with a boxing and wrestling exhibition in which many of the students and gymnasts of the night classes participated.

Boles of the Santa Clara football team, Monday are as follows: North G, 5, 6, 7, 8, 9, 10, north I, from 26 to 31, inclusive; north J from 27 to 38 inclusive, north F, from 37 to 40 inclusive, north H, from 5 to 10, inclusive, north G 33 to 36, inclusive north A, 29, 30, 14, 15, 16, 17; north B 27 to 32 inclusive north C, 35 to 40, inclusive north D, 35 to 38, inclusive, north E 29 to 37 inclusive, north A 26, 27, 31 to 36 and 5 to 8 inclusive; north B, 1, 2, 3, 4 north D, 8, 9, 10, 11; north F, 12, 13, 4, 5, 6 north G, 12 to 25, north E 5 to 5 inclusive.

Alameda High Eleven Meet 'Polys' Tomorrow

The Alameda High and Polytechnic football teams meet on the Presidio grounds tomorrow afternoon for the Academic championship. Confidence is unbounded in both camps.

The two teams have excellent records during the past season. In an early practice game the two elevens played a 0-0 tie. 'Poly' has played a tie game with Belmont, 6-6 and Alameda was defeated by Belmont, 28-0.

Alameda's coach is Ralph Marx, late of the University of Pennsylvania.

The yellow and gold team greatly misses the work of their two star backs, Brush and Graff. The two Mackay brothers are filling their shoes, and while not experienced men, they are reliable ground gainers.

Officials for the game will be: Pat Odea, referee, and William Reid, umpire.

The Alameda team averages 156 2-11 pounds and the ages range from 17 to 19 years. The full line-up, weights and ages are as follows:

Langford Beats Schreck In Less Than Minute

PITTSBURG, Nov. 24.—In less than one minute of fighting in the first round last night Sam Langford, the negro, beat Mike Schreck up so badly that at the order of the fight Referee Hennin-ger stopped the bout and gave it to Langford.

Langford knocked Schreck down twice and pummeled him at will.

Schreck came into the ring weighing at least 200 pounds, while the Bostonian was trained to the minute. Langford tried all day and this evening to come up with Jack Johnson, who is in Pittsburg. He is calling Johnson from the ring.

The whole fight was a fizzle, and the big crowd that turned out for it was not slow in saying so.

Barry Defeats Calloway.—BOSTON, Nov. 24.—The ability of Ralph Calloway, a negro of California, to stand terrific punishment, enabled him to last nine rounds against Jim Barry of Chicago last night. Calloway was knocked out in the tenth round.

Olympics Win Honors at Barbarian Indoor Meet

The Olympic Club proved the victor in the first indoor meet of the Barbarian Club, held last night at the Auditorium, Elliott P. Craig being the particular star, capturing the 600 and 100-yard runs with ease, and taking a conspicuous part in the relay. William Garvin won the two-mile event. Caldwell of the Olympics took the feature event of the evening, the Barbarian handicap at 352 yards. The attendance was disappointing.

The sprints provided some close finishes, Crossfield of the University of California won the 50-yard dash with de Benedetti of St. Mary's and Caldwell of the Olympic Club almost abreast of him. In the 50-yard run Dickson of Lick school surprised by winning by two feet from Crossfield, Caldwell again being a bang-up third.

Cassignol and Cline Play Great Billiards

NEW YORK, Nov. 24. — Firmin Cassignol, the French billiard champion, and Harry Cline of Philadelphia, won the two games played yesterday in the 18-2 balk line tournament for the championship of the world. Cassignol defeated Albert Cutler of Boston 500 to 412, and Cline defeated George F Slosson, the New York veteran, 500 to 332.

In the Cassignol-Cutler game the Boston player in his ninth inning, made the highest run of the tournament thus far—153 points. The Frenchman was deliberate and delicate in his cue work, getting on even terms with his opponent with a run of ninety-seven in the fourteenth inning.

Harry Cline of Philadelphia gave a splendid exhibition of open table and nursing plays in his twenty-first inning, which netted him forty-five carons, ten resulting from three-cushion shots. With a carefully played run of 120 in his thirty-first inning, which was full of brilliant open table work, Cline overtook Slosson and, with an unfinished run of thirty-four, ran out the game in the thirty-fifth inning.

Californian Made Captain: Chicago, Nov. 24.—University of Chicago football was officially closed for the season yesterday with the election of William Crawley, formerly of California, to captain the 1910 team. He was the sensation of the Western track season two years ago, when he won freshmen meets almost alone.

S.S.S. THE REMEDY FOR SORES AND ULCERS

There is but one way to cure an old sore or chronic ulcer, and that is to remove the cause that produces and keeps it open. No matter where located, any sore that remains until it becomes chronic does so because of impure blood; the circulation constantly discharges its polluted matter into the place and it is impossible for nature to heal the sore. S. S. S. heals sores and ulcers by purifying the blood. It removes every trace of taint or impurity from the circulation, and thus completely does away with the cause. No local application reaches below the infected flesh at the spot, and for this reason can have no curative effect on a sore or ulcer; while such treatment is being used alone, the germs and impurities are constantly increasing in the blood and the sore is bound to grow worse. When S.S.S. has cleansed the blood and enriched and purified the circulation the place begins to take on a more healthy appearance, the different symptoms show improvement, the flesh around the ulcer gets firm, new skin and tissues are formed, and aided by pure, rich blood, nature provides a perfect and lasting cure. Under the tonic and blood-purifying effects of S.S.S., the system is built up, and those whose health has been impaired by the drain and worry of an old sore will be greatly benefited by its use. Gas in the Kitchen

A gas company lays no pretension to being a philanthropic institution, and yet in struggling to develop its business, the gas industry has lightened the labor and increased the comfort of millions of women.

THE NEW YORK WORLD in the course of an editorial on "The Golden Age" said: "The kitchen maid of the present day knows more than the fine ladies of Versailles knew when the Louises were kings, and has more comforts and conveniences."

Today the kitchen without a gas range in a community where gas is obtainable is a rarity, and is deemed very antique and primitive by the marriageable generation of young women.

Nearly all women who live in cities will admit, upon reflection, that the gas cook stove is the greatest single domestic blessing that has become theirs in the last quarter of a century.

Women sufficiently fortunate know what it is to be free from the intolerable summer superheat of the coal range, and from the well-founded terror of the gasoline stove. It is also their privilege to enjoy the great economy of the gas-burning stove, its immense labor saving advantages and its cleanness of operation.

The time was reached some years ago when gas in the kitchen came within the financial reach of every family in the city.

SALES OF STOCK IN WALL STREET

NEW YORK, Nov. 24.—London is a little better; Paris and Berlin were weaker yesterday, but a shade better today.

There is little news here this morning.

The newspapers generally belittle the final result of the Standard Oil decision and seem to think after a few days it will cease to be a factor, but we thing it is a far-reaching decision and its results very doubtful and are in favor of taking it easy for the time being, unless it be in spots where fairly good information is available.—H. W. Co.

NEW YORK, Nov. 24.—The technical position of the active stocks is much improved by the little durry and while some further irregularity may occur, it is safe to pick up the industrials on the recessions and hold for much higher prices.

Careful inquiries as to the character of the buying and selling today show that there was excellent buying of most of the stocks recently referred to as purchases. The buying of Consolidated Gas, Smelters and the Equipments was particularly good. Amalgamated and American Can stocks were quietly taken on the declines by people who have been on the long side of the stocks for some time. United States Rubber stocks are also picked up on every recession by shrewd operators.—Gibson.

NEW YORK, Nov. 24.—November net earnings of the United States Steel Corporation are estimated at about $14,000,000, which would compare with $8,756,700 a year ago and $10,457,200 two years ago. Earnings for the current quarter, it is expected, will be close to $42,000,000. After deducting charges and dividends there should remain a surplus of approximately $15,000,000.—Dow Jones & Company.

NEW YORK, Nov. 24.—Business in stocks at the opening today was not large and prices were somewhat irregular. There were good recoveries in the coppers, with running sales of 6000 shares of Amalgamated Copper at 90¼, compared with 89¾ last night. This gain was lost within a few minutes. Utah Copper and United States Rubber rose 1. Reading ran off a point and New York Central ¾. Reading touched 170¼. The pressure on New York Central, which lost 2¾, was the greeting to the new issue of stock at par to stockholders. United States Steel and Amalgamated Copper declined 1. A few stocks moved up independently of the general course of prices for a time. Consolidated Gas going up 1½, Rock Island preferred 1¾ and North American 1.

At 11 o'clock Reading was rising briskly. The rise of 2¾ in Reading gave some sympathetic strength to the rest of the list, which showed a few rallies of a point. The coppers and New York Central then fell back to the low point. Great Northern and St. Louis & Southwestern preferred gained 1 and St. Louis & San Francisco second preferred and American Cotton Oil preferred 2. Vulcan Detinning fell 2 and Utah Copper 1.

Heavy buying for both accounts continued in Reading and its upward course was not impeded until it had reached 172. Profit taking then set in and the rest of the list ran off. American Locomotive and Anaconda Copper sagged a point and Wabash preferred 1½. New York Central weakened a fresh.

Some severe inroads were made on prices New York Central's extreme weakness was no influence on the decline, which was very marked in the railroad equipment stocks. New York Central declined 4½ to 127, Wabash preferred, Amalgamated Copper and American Car 2, American Locomotive 1¼, General Electric, 1¼, and Union Pacific, Denver & Rio Grande, American Sugar, American Smelting and Colorado Fuel & Iron 1. There was a subsequent slight rally when Southern Pacific was bid up a point over yesterday's closing.

The market closed heavy and unsettled. Southern Pacific rose again a fraction higher than before, and Amalgamated Copper recovered strongly to a fraction over last night. The general movement was irregular but toward recovery.

Bonds were irregular at noon.

Barley—Steady; May, $1.51 bid, $1.51½ asked; December, $1.44¾; cash, $1.45@1.45½.

Corn—Firm; large yellow, $1.70@1.75.

CHICAGO GRAIN MARKET

CHICAGO, Nov. 24.—The Inter-Ocean this morning says:

It was the gossip of the wheat traders last night that the break at the close was due to profit taking and that the market acted as if it was due for a break of 1c or more. Prices have been on the upward move for a week and December is up 8½c from the recent low point. The short interest has been reduced and there is a disposition to take profits on long wheat. It was said that Ware-Leland had sold 500,000 bushels December from $1.06¼ down and that they were the largest of the late sellers. A few of the pit professionals said that a drop of 1c from last night's close would put the market in better shape. Bears were disposed to take notice of the Argentine news, which is an important factor, and cables from there are not reassuring in favor of the short seller for the present, as the harvest is commencing and wet weather prevails, which means much in that country at this period.

Corn specialists said the market needed constant buying and that the purchases were not large to hold the market. Bears said they wanted a continuation of this cold weather to increase the receipts and the bulls predicted that there is to be more bad weather. It is a drawn battle. A feature that the bears called attention to was the number of cars of No. 2 yellow arriving. It was said that deliveries on old sales to arrive are being made with a fair percentage of daily receipts, which relieves the pressure.

CHICAGO, Nov. 24.—Fresh confirmation of unfavorable harvesting weather in Argentine caused moderate strength in the wheat market at the start today, but dealing was not large owing to the impending holiday tomorrow. A cablegram was received by a local concern stating that the weather in Argentine was wet and cold. The market opened firm, with prices shade to ⅝c higher than yesterday. December opened at $1.06¼ and May at $1.06⅛@1.06⅜. Early in the day December advanced to $1.08⅛ and May to $1.08⅝@1.08¾.

The market was weak in the last half because of selling by prominent cash interests. The pressure was greatest on the December delivery, which declined to $1.08⅛. May sold off from $1.08⅜@1.08⅝ to about the opening low point. The market rallied again on covering by shorts and closed fairly steady, with December ⅛c lower at $1.08⅛@1.08⅜. May was ⅝@⅞c higher at $1.06⅞@1.08½.

Unsettled weather in the corn belt was chiefly responsible for moderate firmness in the corn market early in the session. Offerings were light at the start. December opened unchanged at 60c and sold

Mlle. Dolores to Appear in Recitals in Oakland Soon

ANTONIA DOLORES.

Mademoiselle Antonia Dolores, an opera singer, who is touring the world in concert recitals, is expected to arrive in Oakland in March, when the music-lovers of this community will be given an opportunity to hear the great exponent of the French and Italian schools of vocal art in her repertoire she will render the compositions of the modern composers, which she gave in Johannesburg, Transvaal, last June

Critics of international fame have lauded the splendid work of Madame Dolores, who is not only an interpreter of Rossini's roulades and of the old form of operatic Italian arias and scenes, which they say she renders with perfection, but she will be recognized for the soulful methods which displays the peculiarly rich and penetrating quality of her voice.

The varied nature of her programs, which are lengthy and sung in four languages, has exemplified her mastery over the art She has a technique that makes light of the greatest difficulties. In light and dainty pieces of vocalization her fine soprano voice is heard to advantage

Wherever the great prima donna has been heard her subtle fascination to charm by her art has been felt. She possesses the temperamental gifts of the actress and is enabled to sway an audience to tears or to laughter in a manner that brilliant executive ability alone could never achieve.

It has frequently been said of Madame Dolores that she has two voices, superlative contralto and superlative soprano; but the most wonderful thing about them declare the critics, is the tonal shadowland when they join and blend.

In the famous scene from "Faust," in which Marguerite muses on the identity of her lover until startled by the discovery of the casket of jewels he has placed in her path, she has won distinction.

END OF A RED NOSE

New Flesh-Colored Product That Heals and Hides Skin Imperfections.

It can thus be applied in the day time, the natural color of the skin being immediately restored and the actual healing and curing process accomplished in a few days. It can be had of any pharmicist who sells pure drugs. The Owl Drug Company makes a specialty of it. Fifty cents' worth will answer either for the troubles mentioned or in curing ordinary cases of eczema. Itching stops at once.

EFFECTIVE PLEA OF COUNTERFEITER

Takes Blame for Inducing Young Boy to Engage in Crime

PORTLAND, Ore., Nov. 24.—(Special).—"I am guilty, your honor. Send me to McNeil's Island, but don't send the boy. I got him into this counterfeiting business, and you ought not to sentence him."

With these frank words, trying to protect a youth in the toils of the law with him on the charge of counterfeiting, Frank Watson courted incarceration. He was sentenced to one year and one day in the Puget Sound Prison, while the object of his solicitude. Frank H. Duvoll, was permitted to go on his own recognizance, pending good behavior.

Watson was among a batch of seven men arraigned. Asked by the Court if he had any statement to make in his own behalf, the prisoner said, with apparent effort to control his voice:

"I am guilty, your honor I had been working on a military rifle for some time, and the boy was working with me. We were out of money. Our work on the rifle taught us how to shape metal, and it occurred to me that we could get enough money in this way to carry on our work. All of my money had been spent, not in a bad way I got the boy into the counterfeiting business. Send me to the penitentiary, but don't send the boy."

NONE BETTER IN OAKLAND.

For $1.50 you will find the finest Thanksgiving dinner in Oakland served at the Saddle Rock, from 11 a. m. to 8 p. m. Remember the address—13th street, between Broadway and Franklin.

ARREST SLAYER OF SAN FRANCISCO MAN

CHICAGO, Nov. 24.—William A. Brown is being returned from Terre Haute, Ind., by Detective Steve Barry to aid the police in solving the mystery of the death of Andrew Pelliginni, an aged man of San Francisco, who was found dead at 1282 Halsted street, in this city.

The arrest of Brown in Terre Haute followed a chase through several cities in which an alleged accomplice, Steve Blackwell, was arrested in St. Louis. The admissions of Blackwell, say the police, made them more determined to find Brown.

Brown and Blackwell fled shortly before the body of Pelleginni was found in the Halsted-street house. The pockets of the dead man's clothing were emptied and $50 and a gold watch were missing. Pelliginni had gone to the house with Kate Hayes, who, it is said, he planned to marry. While the girl was absent from the room the aged man was attacked and robbed.

CHINN BERETTA

---Day after tomorrow the eye maker arrives

—If you wish him to show what he can do for you phone us tomorrow and arrange an hour to consult him.

—We absolutely guarantee his work in every particular, feeling doubly safe in doing so from our experience with him at our Stockton, Sacramento and San Francisco stores.

—In these cities his accomplishments were almost superhuman — he made artificial eyes for people who had never before been able to find anything satisfactory, and made a perfect success of every effort.

—In Stockton he succeeded in making an eye for a gentleman, and after it had been completed Mr. Beretta himself did not know it was artificial.

—We have never heard of a man of Professor Kohler's ability and earnestly advise every one who may be interested to arrange at once to see him at some hour during his three-day stay in Oakland.

$5 FOR RETURN OF $3,280! POOH!

Woman Who Found Bankroll in Hotel Spurns Small Reward

SAN FRANCISCO, Nov. 24.—The munificent sum of $5 for the return of $3280 which the owner lost is not a sufficient reward for honesty, believes the management of the Stanford Hotel in Kearny street. Otto W. Olsen, owner of the Pioneer mine at Nome, Alaska, will probably be surprised to learn this when he reaches Los Angeles today

Olsen, reputed to be worth $100,000, arrived in San Francisco from Alaska several days ago and put up at the Stanford. He left for Los Angeles yesterday morning, and when an employe of the hotel, Mrs. Sadie Martin, rearranged the room she found $3280 in currency under the pillow of the bed Olsen had occupied.

The money was given over to the manager, who by telegraph reached Olsen on the Los Angeles train. A return wire requested the money to be sent to Los Angeles, after deducting $5 for the finder

The money was sent to Los Angeles last evening, and with it a polite note that Olsen could send Mrs. Martin personally any reward he desired.

TALKED ON NEW RAILWAY DEPOT

Chamber of Commerce to Make Inquiry Concerning Delay in Plans

The regular semi-monthly meeting of the directors of the Chamber of Commerce was held last evening with President I. H Clay in the chair.

C. Leidecker, W. H. Ramsey and C. M Burkhalter were elected to membership Upon motion of H. C. Capwell the San Francisco and local press were thanked for their support of the bonds and annexation projects. A. J. Snyder referred to the fact that, although a Southern Pacific delegation composed of Kruttschnitt, Hood and Calvin had at the time of their visit to Oakland, three months or more ago, promised to have new plans drawn for the depot at Sixteenth street ready in thirty days, nothing had been heard of the matter and he suggested the railroad officials should be communicated with on the subject.

M. J Laymance stated that the mayor and Board of Public Works as well as several councilmen had promised they would not grant any privileges or favors to the Southern Pacific Company until a start had been made on the new depot.

THE NEW DEPOT.

He thought that as the Southern Pacific Company was seeking several franchises at the present time that the city administration should be reminded of their pledge. It was finally decided that a memorial should be addressed to the Southern Pacific Company on the subject

The following were appointed delegates to the National River and Harbor Congress, which meets in Washington December 7, 8, 9 and 10: F K. Mott, M. J Laymance, George C. Pardee, Senator George C Perkins F W Bilger, B. P Miller, Congressman J R. Knowland, C H. King, R. A Berry, E C. Sessions, H P Dalton, George Samuels, W. H Wellbye, John Mitchell and Hugh Hogan

M. J. Laymance provoked cheers when he stated that the construction of the Bankers' Hotel would be under way in less than thirty days. F. A. Miller of Fruitvale, in a communication, complained that Wells, Fargo refused delivery east of Davis street unless under a charge of 10 to 15 cents extra. Complaint was made that the Southern Pacific had no freight station at Fruitvale, but compelled consignees to go to Melrose; also that the grade on Nichol avenue should be established to permit property owners to lay sidewalks.

PLEDGES TO BE FILLED.

M J Laymance said "We must get ready to take care of those people, as we are pledged to do Their storekeepers must have the same advantages as we have on Broadway We must see they get all the advantages they are entitled to" The committee on municipality was directed to take the problems presented by Mr. Miller's letter in hand and report at next meeting

President Clay was delegated to attend the banquet of the San Francisco Chamber of Commerce on November 29 as the representative of the local body.

The request of the Berkeley Chamber of Commerce that Oakland ought to stand one-sixth of the expense of planting trees on Yerba Buena Island and amounting to $600 was admitted. The Merchants' Exchange will be conferred with on the subject and the directors of that organization asked to contribute one-half of the amount.

Short talks were indulged in by J. P. Montgomery H T. Powell, Carl M. Reuter, C M Wood, Naph B. Greenfelder and Messrs. O'Neill, Seaman and Carson.

EVADES PARENTS AND WEDS MAN OF CHOICE

STOCKTON, Nov 24. — After her parents had been closely watching her for some weeks to keep her from marrying William J Thompson, a brother of County Public Administrator George Thompson, Miss Nellie Lucey daughter of James Lucey of Union Island, gave them the slip Tuesday night and rode in a buggy to Stockton where the couple were married, the preliminary arrangements having been secretly arranged by James Thompson a cousin of the groom.

An older daughter of Lucey some months ago slipped away and wedded the man of her choice after her father had refused to give his consent, for no other reason than he wanted to keep his children together. When Miss Nellie's sweetheart asked for her hand he was refused for the same reason.

Then the plotting commenced, and relatives of both of the young people took a hand in assisting them, with the result that they are now enjoying their honeymoon Lucey has about given up all hopes, but still insists that he will not let his youngest daughter marry for years to come.

HOSPITALS MAY REFUSE PATIENTS WITH TYPHOID

SACRAMENTO, Nov. 24. — Typhoid fever has never been considered a disease to be excluded from hospitals on the ground of infection, but Dr. W. F. Snow, secretary of the State Board of Health, is seriously considering whether the prohibitions of the Board in their application to contagious diseases should not be extended to take in typhoid.

The question has arisen through a request by Dr. William Simpson, Health Officer of Santa Clara county, for a ruling as to his authority to issue or refuse to hospitals in San Jose the privilege of receiving typhoid patients. There is a general law applying to the exclusion of smallpox patients from hospitals and it has always been invoked to exclude other contagious diseases, but whether typhoid is included is a question.

PROMOTERS WILL OPEN OFFICES IN CHICAGO

CHICAGO, Nov. 24. — A permanent California bureau in Chicago to boom the farm lands and mineral wealth of the Golden State will be established by the California Promotion Committee, according to an announcement made by Dr. Clarence E. Edwords, chief of the literary bureau of the committee and Governor Gillett's special commissioner to the National Farm Land Congress in Chicago.

A similar bureau has been established in New York, and the Californians Dr. Edwords declared, have found so much interest in California in the Middle West that Chicago will be made the headquarters of a propaganda covering the entire Mississippi valley. Edwords is now negotiating for suitable headquarters for his bureau in the down town district

FORMER PASTOR IS MYSTERIOUSLY MISSING

BELVIDERE, Ill., Nov. 24.—Rev. J. S. Mahood, former pastor of Trinity Episcopal Church of this city, has mysteriously disappeared, and no trace of him can be found.

When Rev. Mahood gave up his pastorate in Belvidere about a year or so ago, he was suffering from over-work. With his wife and three children he went to Queen's Bay, British Columbia. He left there early in the spring to make a trip down the coast and through California.

He appeared in Sacramento some time later and is supposed to have left there to return home, but since that time nothing has been heard of him. The Masonic Lodge here, of which he was a member, and every lodge in the West will be asked to search for him

Canned Garden and Orchard Products Contain No Preservatives

We want you to know, Mrs. Housewife, that the talk about preservatives doesn't refer to fruit or vegetables put up in tin cans.

No canner of garden or orchard products uses any preservatives. This is *invariably true.*

The preserving is done by sterilization—done by heat alone. Chemical preservatives are entirely unnecessary, a useless expense.

Our canneries, naturally, are located where the best of our products grow. And we naturally plant but the finest varieties.

Our canneries are always close to our gardens and orchards. So our products are canned in the prime of their freshness—within a few hours of the picking.

Our fruits are never picked green and left to ripen in shipment. Our vegetables are never allowed to wither like those which you get from the vegetable man. So canned products will average far better than any you get from the garden or orchard. Yet they are even cheaper.

The sterilizing is done by terrific heat after the can is sealed. Then the products remain just as luscious and fresh as they were the day we cooked them.

Del Monte

Canned Fruits and Vegetables

Packed Where They Ripen

The Day They're Picked

Now we can get fruits and vegetables in January exactly the same as in June. We owe that to sterilization.

This fact has improved the average health, for fresh fruits and vegetables form an essential part of our diet.

Don't let any mistaken prejudice lessen these benefits to you. Fruits and vegetables put up in tin cans are always clean, always pure, always free from preservatives.

Del Monte—The Choicest Peaches From Our 1,000,000 Trees

Del Monte requirements demand the large, luscious, tree-ripened peaches. They are firm, delicious fruit packed in heavy, clear guaranteed sugar syrup.

Del Monte peaches are the first grade of all the peaches we pick. From our million trees we obtain every quality which we put up in cans under more than 200 different labels and brands. Most of these brands are our own; some belong to dealers.

Of all these brands Del Monte peaches are the best value. They are the cream of this great crop. Some dealers have us pack for them, under their own labels, this famous Del Monte quality. It would make no difference in buying these choice peaches if you knew under what brands the Del Monte quality is packed. Since there is no way of knowing, the surest way is to insist upon getting Del Monte peaches—20c per can everywhere.
